MALE ANNOUNCER: The following is a paid advertisement and is the opinion of Seven Day Miracle Cleanse.

ON SCREEN: Dr. Elaine Davis

DR. ELAINE DAVIS: Welcome to another edition of the Seven Day Miracle Cleanse. I hope you will join us as I share my life-changing experience with you. I am 42 years old and the mother of five children. After having four of them within five years, I was sure that I would never fit into my normal clothes again. I tried dieting, but I was always hungry. I tried exercise, but let's face it, it's boring and it's too time-consuming. I was ready to resign myself to elastic waist pants and bulky tops until I met The Health Man. When he told me about his program, I was skeptical. After some coaxing, I agreed to try his program, the Seven Day Miracle Cleanse.
ON SCREEN: Individual results may vary.

DR. ELAINE DAVIS: Since I tried the Cleanse, I have lost over 40 pounds. It’s not a diet, it’s better than a diet because after completing the program, I didn’t need to eat as much food to feel satisfied. My body became much more efficient at absorbing nutrients.

How did Princess Diana become a world-renowned beauty? Find out what Jennifer Lopez, Demi Moore, Janet Jackson, Goldie Hawn, Daman Wayans, Liv Tyler, Cindy Crawford, Ben Affleck, and others, do to lose weight and to look young.

And, now, the founder of the Seven Day Miracle Cleanse, The Health Man.

ON SCREEN: (Scrolling across top of screen)

The average colon should weigh 4 lbs... John "Duke" Wayne died from colon cancer and his colon weighed 45 lbs... Elvis Presley had a blocked colon at the time of his death and his colon weighed 45 lbs... These are typical cases of how impacted and constipated a neglected colon can become...

THE HEALTH MAN: Are you sick and tired of being sick and tired? Are you one of millions who suffer from the common ailments such as constipation, irritable bowel syndrome, fatigue, Alzheimer’s and other diseases? Have you been struggling year in and year out with your
health problems? Then why should you suffer any more?

I have the solution for you. Imagine being in control of your health. You can look and feel 10 to 20 years younger than your age, have perfect cholesterol, perfect body weight and consistent bowel eliminations, a body immune to all sickness. These are the characteristics of perfect health.

ON SCREEN: (Scrolling across top of screen)

...The average American carries around an extra 5-25 lbs. in the colon (large intestine)...Most people eliminate and lose 5-25 lbs. while completing the 7 Day Miracle Cleanse...

THE HEALTH MAN: In the next half hour, I guarantee each and every one of you that you will be amazed as I show you the most innovative health rejuvenation system in the world, which has never been available to the public until now.

Thank you for joining me today from beautiful Hawaii. I’m the Health Man. I must first say it is a pleasure to have this incredible opportunity to share this profound knowledge with each and every one of you. What I’m about to tell you about your own personal health may be equally alarming and amazing.

...Parasites are not just a 3rd world
problem...A cubic inch of beef contains 1200 parasite

the body in just 10 days...

THE HEALTH MAN: I would like to address what I feel is the missing link in our society when it comes to
our own health, as we are the unhealthiest nation in the
world. It is a fact that you were born perfect and
somewhere along the way you’ve become imperfect. The
right knowledge has not been available to you, the
public, and we are not trained to create a perfectly
healthy body, immune from disease. If this were not
ture, then why has the United States become the most
diseased nation in the world?

Jackson, Jennifer Lopez, Demi Moore in detoxifying and
cleansing your way to looking younger and losing
weight...

THE HEALTH MAN: According to the respected
publication, the Merck Manual, colon health has
degenerated quickly. For example, the major colon
disease, diverticulosis increased from 10 percent of adults over the age of 45 in 1950 to 50 percent by 1987. The most recent edition declares that virtually every American adult will have diverticulosis in the large intestines at some point in their life. This can be prevented.

I feel, and you probably do as well, that we have become so frightened and fearful when it comes to our own health. How many of you take prescription drugs or visit a doctor year in and year out?

**KAREN:** You hit 40 and it seems like things start to fall apart and it really energizes you, it makes you feel like you’re 25 again.

**ON SCREEN:** Pauline, 70

*Individual results may vary.*

**PAULINE:** I had a real bad knee, they wanted to operate, do an implant on, and I just did not want that. So, this was the reason that I opted to do this and but I’ve known people, too, that have had the operation and it didn’t help them that much either. They’ve still had problems.

THE HEALTH MAN: Every time you have a symptom of illness, you run to the medicine cabinet or to the doctor’s office, don’t you? Understand that we have been conditioned to this for generations and simply do not even question it. But do you ever really find out the real causes of your health problems? Does your doctor ever really educate you on the simple and inexpensive healing modalities available to you? Of course not. It is not in their best interests or part of the medical practice to do so. In fact, the average medical doctor has only 2.5 hours of nutritional training during their years in medical school.

ON SCREEN: (Scrolling across top of screen)

The 7 Day Miracle Cleanse works in JUST 7 days to clean your colon...This program is NOT a laxative, as opposed to products that require daily use for extended periods...

THE HEALTH MAN: I feel doctors automatically prescribe pharmaceutical drugs and remove body parts that...
we need.

When we buy a pill and buy peace with it, you get conditioned to cheap solutions instead of deep ones. In my opinion, the medical industry’s approach is unorthodox because it does not identify the original cause of sickness and disease, but simply treats the symptoms of them, don’t they?

ON SCREEN: Karen, 42

KAREN: I am not into going, you know, to the medical doctors and having them cut your problem out. You know, let’s just do the incision and take out this organ because you’re having problems with it. That doesn’t really hit on where that problem came from. It’s just -- it’s not really going to heal you, they’re just, you know, doing -- that’s the way Western medicine is.

I believe it can help anybody. You know, you’re actually cleaning your body so it can work again.

ON SCREEN: (Scrolling across top of screen)

THE HEALTH MAN: A cancerous tumor, which is a symptom, is routinely removed by surgery. This is usually followed by painful radiation treatment and debilitating chemotherapy. But why doesn’t the treatment attack the cause? Interesting, isn’t it? No wonder cancer comes back with such a vengeance. Healing can only begin when we attack the cause of disease.

THE HEALTH MAN: This is a diagram of the human digestive tract. The colon is highlighted and is considered the sewer of the human body. Now, this should surprise many of you. Did you know that your digestive tract is responsible for about 90 percent of your overall health? Yes, 90 percent. Did you know that your entire body is fed by your small and large intestines?

ON SCREEN: (Scrolling across top of screen)
The average colon should weigh 4 lbs... John "Duke" Wayne died from colon cancer and his colon weighed 45 lbs... Elvis Presley had a blocked colon at the time of his death and his colon weight 45 lbs... These are typical cases of how impacted and constipated a neglected colon can become...

THE HEALTH MAN: First, the colon feeds your blood, then the blood cells feed all of the cells in your body including your brain cells. You’re probably asking yourself, why should this mean something to me, right?

ON SCREEN: MUCOUS PLAQUE

Pictures of colon and mucous plaque

THE HEALTH MAN: I say this because the National Health Federation has estimated that over 97 percent of the population is living in a state of constipation and has developed what is called mucous plaque in the small and large intestines. Mucous plaque creates a daily self-poisoning effect on your entire body called toxemia. This mucous plaque exists inside of almost every American and lines the internal wall of your colon.

We have the ability to live twice as long as we are living today, but we need the knowledge on how to do this. The colon is one of the primary indicators as to how long we will live.

THE HEALTH MAN: Look, what I am offering is the opportunity to live a longer life without sickness or disease, with an abundance of energy and vitality.

ON SCREEN: Joseph, 60

JOSEPH: Listen, the energy that you get, you’re going to feel -- you’re going to feel like Superman.

ON SCREEN: Karen, 42

Individual results may vary.

KAREN: I feel now that I can keep up with everything and I have more time and more energy to go do other things, also, you know, get out of the house and do more. So, I feel so much better, and I’m sure the kids can tell the difference.

ON SCREEN: (Scrolling across top of screen)

...Parasites are not just a 3rd world problem...A cubic inch of beef contains 1200 parasite larvae...Parasine 2 is proven to eliminate parasites from the body in just 10 days...
THE HEALTH MAN: How does your body develop this mucous plaque? It all begins at about the age of six. Every time we eat foods not composed of fresh fruits and vegetables and their juices, raw nuts or seeds, a microscopic residue lines the digestive tract. This is especially true when we consume pasteurized milk products, including milk, and starches such as breads and sugar products and alcohol and soft drinks and coffee and the list goes on. These products are absolutely indigestible foods.

THE HEALTH MAN: Over a period of 10, 20, 30 years or more, these residues accumulate to develop mucous plaque a quarter inch to two inches thick around the entire circumference of the inner colon.

Take a good look at the inside of this pipe. See the residues that have developed on the inside of it?
This pipe is nearly blocked making it almost impossible for anything to pass through it.

ON SCREEN:  Picture of colon
Colon wall
Mucous plaque

THE HEALTH MAN:  This is very similar to the average colon. We have taken it for granted that what we put into our mouth is going to come out of the other end of our digestive tract.

THE HEALTH MAN:  Are you one of millions who take laxatives? I was one of those people once. We have just not been taught how to cleanse or to maintain cleanliness, especially in our colon. Why is it that we clean every other orifice except the filthiest? The colon is analogous to a sewer in your body and needs to be maintained just like every other orifice in your body.

Take a moment to think about this. What if you
neglected any of your other body openings? For example, imagine not brushing your teeth or cleaning your ears for 10 years or more. It would be foul to say the least, right?

Now, imagine the condition of your colon. It is time that everyone gain awareness of the overlooked colon and the necessity of having a clean colon because your health depends on it.

ON SCREEN: Diagram of perfect colon and average American colon

THE HEALTH MAN: This is how a perfect colon should look. Contrast this with how the average American colon looks. See how distorted the appearance of the neglected colon is?

The key to losing weight is in balancing the thyroid gland in your body because it controls the production of fat cells.

THE HEALTH MAN: Another danger of mucous plaque is that it houses toxins, such as heavy metals,
which is thought to be a major contributor of Alzheimer’s Disease. It also houses parasites, fungi, worms and harmful bacteria, each of which can weaken your immune system. The elimination of this filth is one of the key components in achieving perfect health and in building a pain-free body for both young and old.

I challenge any person, any organization to prove me wrong. What I am talking about is real. It’s never too late to benefit from the Seven Day Miracle Cleanse Program, a rejuvenation system.

THE HEALTH MAN: How easy is it to eliminate

constipation? I know that if you complete just one Seven

Day Miracle Cleanse Program, you will have regular,

healthy bowel eliminations just as you did when you were

a child. Fecal waste products should stay in your system

no longer than 24 hours, although six to eight hours is

ideal. The average time is 72 to 96 hours, which gives

fecal matter enough time to putrefy and build up toxins

that can affect every part of your body, especially the

immune system.

THE HEALTH MAN: Can you imagine eliminating constipation in just seven days of your life? How long have you been suffering? Isn’t it time for you to do something about it?

I feel the medical industry has done a superior job of making us feel inferior about taking care of our own health. Also, they have intentionally made us believe that our own health is too complicated to figure out for ourselves and that we need to depend upon them to do our thinking for us. Visiting a doctor is nothing more than experiencing intellectual degradation. Just like mindless robots, we go to a doctor every time we get sick, looking for sympathy or for a quick fix in the form of an unnecessary drug. We have blindly bought into credentials rather than using our own faith and God-given common sense.

THE HEALTH MAN: As Voltaire stated, a physician is one who pours drugs of which he knows little into a body of which he knows less. It is a fact that over 160,000 people die each year after taking prescription medical drugs.

KAREN: This is such a better alternative than going and being medicated, you know, with medicine that has side effects and, you know, the TV commercials, my kids laugh at them. Oh, yeah, Mom, right, you know, liver damage, kidney damage, heart attack, sure, we want to -- you know, we want to take that. And that’s true. People -- anybody -- if my kids notice it, everybody’s going to know. Why would I take that medication? You know? There’s got to be a better way. Let’s get back to nature, our fruits and our vegetables, you know, we’ll be much better off.

ON SCREEN: Professor Ron Beadle

PROFESSOR RON BEADLE: The Seven Day Miracle Cleanse is a must and you’ve got to do it. I’m telling
you. If not, it’s your fault.

The 7 Day Miracle Cleanse works in JUST 7 days to clean your colon...This program is NOT a laxative, as opposed to products that require daily use for extended periods...

THE HEALTH MAN: Are you intelligent people?

Of course you are. I’m here to tell you that the only person that can heal you is you. You create your health problems, you can uncreate them.

So, what’s missing? All you need is the right knowledge on how to eliminate the filth, this mucous plaque, this blockage from your colon. And, more importantly, to maintain a clean environment for the prevention of sickness and disease in your body. Is changing your diet the solution? The best diet isn’t any better than the worst if you don’t remove the old mucous plaque first.

because your body will be more efficient at absorbing nutrients...

THE HEALTH MAN: Remember what I said earlier. Consumers in America absorb less than 10 percent of the nutrients from the foods they eat. If you are serious about improving your well-being, then the elimination of mucous plaque is the key to success.

Eleven years ago, I was diagnosed with skin cancer and breast cancer, although I was in perfect physical health. I had been living with open sores on my body that would never scab or heal. Then a lump developed in the right pectoral area of my chest. It grew to the size of a golf ball. Within nine months, the pain grew to be so unbearable that it consumed my every thought and I could not take the pain any more. I was in serious denial to think that anything could be wrong with me. After all, I was in perfect physical shape.

ON SCREEN: (Scrolling across top of screen)

...This is why you will keep the weight OFF, as opposed to dieting. Order now and take charge of your health. Rush shipping is available!

THE HEALTH MAN: So, I went to a doctor and after many, many tests, it was not only determined that I had breast cancer, but I had skin cancer as well. I will never forget how much I was gripped with fear at that
moment. I was dripping with sweat, my heart was pounding so hard I thought it was going to burst through my chest. I felt like the walls were closing in on me.

ON SCREEN:  (Scrolling across top of screen)

The average colon should weigh 4 lbs... John “Duke” Wayne died from colon cancer and his colon weighed 45 lbs...Elvis Presley had a blocked colon at the time of his death and his colon weight 45 lbs...These are typical cases of how impacted and constipated a neglected colon can become...

THE HEALTH MAN: And then the doctor said that he wanted to schedule me for surgery, chemotherapy and radiation. There was no way I was going to have any of this done to me because I watched my grandmother die within three weeks after the same treatment. I knew that I was going to have a different fate. So, I rushed out of the doctor’s office. My faith was extremely strong, but I knew that I didn’t have much time and that I needed to find a healing solution fast.

I was smart enough to know that surgery would only remove the symptom of my illness, but not the cause. I was only interested in the cause of my disease. I remarkably found a simple and easy bowel cleansing program within one day. I didn’t know anything about this program, so I was very skeptical. But I was told...
that many people had healed themselves of just about every health infliction conceivable.

ON SCREEN: (Scrolling across top of screen)

...The average American carries around an extra 5-25 lbs. in the colon (large intestine)...Most people eliminate and lose 5-25 lbs. while completing the 7 Day Miracle Cleanse...

THE HEALTH MAN: I started my first Seven Day detoxification program and I will never forget what happened on the fourth day. The pain in my tumor had vanished. I was also experiencing an overwhelming feeling of peace and tranquility. I knew that I had tapped into the source of healing.

...Parasites are not just a 3rd world problem...A cubic inch of beef contains 1200 parasite larvae...Parasine 2 is proven to eliminate parasites from the body in just 10 days...

THE HEALTH MAN: Within seven days on my first program, the improbable happened. My skin cancer sores had scabbed over. Within 14 days, they had healed completely. I repeated this program every three weeks until my tumor had completely disintegrated. This process took only four months.

I had also realized through the visual
experience of examining the mucous plaque that poured out
of my body during the cleansing process that this
material is very, very toxic and poisonous. In my
opinion, it is the true source of sickness and disease.

THE HEALTH MAN: This lifetime of residues,
this mucous plaque was poisoning my bloodstream, my
cells, my entire body every day until my tolerance was so
depleted that it left my body vulnerable to disease.
This is typical of every American and this means you.

After healing myself, I had decided that I was
going to dedicate my life to sharing this knowledge with
everyone. After a few years after extensive research of
nutritional supplements, bowel cleansing, disease, juice
therapy, herbs and other associated products, I had
developed the Seven Day Miracle Cleanse. It was my goal

wellness so everyone could have the same opportunity to

MALE ANNOUNCER: First, you will get the Seven
Day Miracle Cleanse handbook which describes the easy,
step-by-step instructions to prepare you for the
cleansing experience and to guide you through it. There
are three different programs to choose from, a program
for everyone.

ON SCREEN: Bottle of Parasine 2
MALE ANNOUNCER: You will also get my Parasite and Worm Eliminator, Parasine 2. This product is taken before the seven-day program. It eliminates parasites and worms. The average person harbors millions of harmful parasites, especially throughout the digestive tract. It is a fact that over 50 million children die each year from parasites worldwide. This is a serious issue and anybody who desires to achieve perfect health needs to eliminate these parasites.

Many people who have taken this product have stated that they have expelled tapeworms that they did not know they had. Parasine 2 is the most effective of its kind.

ON SCREEN: Bottle of Super Boost (Green Mix)

THE HEALTH MAN: This product is my awesome Super Boost Greens, a powerful antioxidant as well as an alkalizer to balance the pH in your blood. Everyone should be taking greens every day just like this one.

As you consume acid-forming foods, your blood’s pH level is adversely affected. Your blood will automatically leach minerals from your bones and muscles. Our bones can become brittle and shrink as our muscles lose their tone as we get older. The Super Boost Greens can replenish these minerals. This is a one-month supply and it is recommended for continued daily use. Greens are essential in the cleansing process because it supplies our body with vegetable protein, chlorophyll and trace minerals necessary for rejuvenating the human cell.

THE HEALTH MAN: Now, I’m ready to help
millions. Not only did these people heal themselves, but
they raised their health and lives to a level that they
did not previously experience. Look, it’s not our fault
that we have a very unhealthy society. We were just not
taught the basic secrets to create a perfect, healthy
body.

Now, you have no more excuses because the Seven

So, I thought, I have to do this.

THE HEALTH MAN: How much do you value your health? How much would it be worth to prevent degenerative health problems so you don’t find yourself on the surgeon’s table under the knife? Would you pay a million dollars, a $100,000, $10,000?

At this moment, I offer you the opportunity to take charge of your health.

How many of you have this? Have you tried thousands of sit-ups and still can’t get rid of this? Remember what I told you earlier. The average person carries around 10 to 25 pounds of mucous plaque. This is your colon impacted with years of mucous plaque creating this bulge, adding constipation on top of it.

I’ve worked with many women and I know how sensitive you are about this. In fact, I believe it is the area of your body with which you are the most unhappy, right? The Seven Day Miracle Cleanse really works. There is no need to wait for a flat stomach any longer.

SEVEN DAY MIRACLE CLEANSE

FEMALE ANNOUNCER:  He is going to share with you the secrets of how you, too, can heal yourself of just about any health problem and how you can build a
pain-free body. He is a man who was diagnosed with breast cancer and skin cancer 12 years ago. Not only did he heal himself within four months, but something amazing occurred in the process. He became perfectly healthy.

**FEMALE ANNOUNCER:** Now, here is the founder of the Seven Day Miracle Cleanse, the Health Man.

**ON SCREEN:** (Scrolls at bottom of screen throughout the entire infomercial)

If we want to be free of all the self-created pain, we must cleanse and purify every aspect of our bodies and minds. A Yale University study revealed that vegetarians have nearly twice the stamina as meat eaters. The Journal of the American Medical Association reported that a vegetarian diet can prevent 90-97% of all heart diseases. The number one cause of death in the United States is heart disease. Studies reveal 59% less cancer among people who eat small amounts of meat compared to average meat eaters. Although meat needs to pass through the digestive tract quickly, it takes four times longer than grains or vegetables.

The American National Institute of Health, in a study of 50,000 vegetarians, found that they live longer, have far less heart disease and a much lower cancer rate compared to meat eaters. World starvation is well
connected to meat-eating habits. If Americans stopped
feeding grain to cattle, the excess grain could feed 500
million people.

THE HEALTH MAN: Are you sick and tired of
being sick and tired? Are you one of millions who suffer
from the common ailments such as constipation, irritable
bowel syndrome, fatigue, Alzheimer’s and other diseases?
Have you been struggling year in and year out with your
health problems? Then why should you suffer any more?

I have the solution for you. Imagine being in
control of your health. You can look and feel 10 to 20
years younger than your age, have perfect cholesterol,
perfect body weight and consistent bowel eliminations, a
body immune to all sickness. These are the
characteristics of perfect health.

In the next half hour, I guarantee each and
every one of you that you will be amazed as I show you
the most innovative health rejuvenation system in the
world, which has never been available to the public until
now.

Thank you for joining me today from beautiful
Hawaii. I’m the Health Man. I must first say it is a
pleasure to have this incredible opportunity to share
this profound knowledge with each and every one of you.
What I’m about to tell you about your own personal health may be equally alarming and amazing.

I would first like to address what I feel is the missing link in our society when it comes to our own health, as we are the unhealthiest nation in the world. It is a fact that you were born perfect and somewhere along the way you’ve become imperfect. The right knowledge has not been available to you, the public. If this were not true, then why has the United States become the most diseased nation in the world?

According to the respected publication, the Merck Manual, colon health has degenerated quickly. For example, the major colon disease, diverticulosis increased from 10 percent of adults over the age of 45 in 1950 to 50 percent by 1987.

ON SCREEN: (Scrolls at bottom of screen throughout the entire infomercial)

-- that could be used to grow food instead of being used for grazing cattle. Only raw foods have life force and enzymes, and they are more important to our health than taking vitamins, minerals and amino acids. Drugs have no life force --

THE HEALTH MAN: The most recent edition declares that virtually every American adult will have diverticulosis in the large intestines at some point in
their life. This can be prevented.

I feel, and you probably do as well, that we have become so frightened and fearful when it comes to our own health. How many of you take prescription drugs or visit a doctor year in and year out?

ON SCREEN: Dr. Fred Bisci M.D.

Age 82

DR. FRED BISCI: I think all the people that have dealt with seriously sick people, people that have not been able to do it just by changing their diet, and there’s a lot of people like that that I see. They have to go through this process of cleaning out their bowels. So, it’s imperative and very, very important if you want to live a (inaudible) and long, long life that you have to keep the sewage or the elimination system clean.

There’s a lot of bowel cleansers out there, I’ve probably tried them all. I recently tried the Seven Day Miracle Cleanse. I tried it on myself. I definitely did see an improvement in how I feel. So, I know it is a superior product and I certainly would recommend it for anybody and I’m definitely going to start recommending it to my patients or my clients, the people in my practice.

ON SCREEN: (Scrolls at bottom of screen through the entire infomercial)

Drugs have no life force, no nutrition, and no
enzymes, but herbs have them all. The regular use of an excellent antioxidant formula can protect and maintain your body in optimal health. An exact pH is necessary for blood purity, enzyme activity, and full immune potential. More than 90% of the American population has lost the proper pH balance. Disease is a natural result obtained from an unnatural lifestyle. The advanced stages of bowel diseases such as diverticulosis --

www.7dmc.com

THE HEALTH MAN: Every time you have a symptom of illness, you run to the medicine cabinet or to the doctor’s office, don’t you? Understand that we have been conditioned to this for generations and simply do not even question it. But do you ever really find out the real causes of your health problems? Does your doctor ever really educate you on the simple and inexpensive healing modalities available to you? Of course not. It is not in their best interests or part of the medical practice to do so. In fact, the average medical doctor has only 2.5 hours of nutritional training during their years in medical school.

I feel doctors automatically prescribe pharmaceutical drugs and remove body parts that we need. When we buy a pill and buy peace with it, you get conditioned to cheap solutions instead of deep ones.
In my opinion, the medical industry’s approach is unorthodox because it does not identify the original cause of sickness and disease, but simply treats the symptoms of them, don’t they?

ON SCREEN: (Scrolls at bottom of screen throughout the entire infomercial)

-- inflammatory bowel disease, dysplasia, bowel cancer, and others, are associated with contaminated --

ON SCREEN: Karen, 42

KAREN: I am not into going, you know, to the medical doctors and having them cut your problem out. You know, let’s just do the incision and take out this organ because you’re having problems with it.

ON SCREEN: The seven day miracle cleanse is not intended to treat, sure or diagnose any disease

KAREN: That doesn’t really hit on where that problem came from. It’s just -- it’s not really going to heal you, they’re just, you know, doing -- that’s the way Western medicine is.

I believe it can help anybody. You’re actually cleaning your body so it can work again.

ON SCREEN: (Scrolls at bottom of screen throughout the entire infomercial)

-- and others, are associated with contaminated mucous plaque. No one can be healthy without a strong,
clean liver. A toxic liver results from a toxic bowel, and leads to disease. 50,000 Americans die each year from colon cancer. Cleanse your colon for optimal health.

(Animation of colon -- ideal colon)

One third of the American people now have candida, which can weaken the whole body, especially the immune system. More than 55 million American children are infected with worms. Parasites protect themselves from most de-worming measures by burrying themselves inside or underneath the impacted mucous layers. Parasites may be microscopic in size or as long as 30 feet (or longer) --

(Animation of colon -- average colon)
(Pictures of mucous plaque)

THE HEALTH MAN: A cancerous tumor, which is a symptom, is routinely removed by surgery. This is usually followed by painful radiation treatment and debilitating chemotherapy. But why doesn’t the treatment attack the cause? Interesting, isn’t it? No wonder cancer comes back with such a vengeance. Healing can only begin when we attack the cause of disease.

This is a diagram of the human digestive tract. The colon is highlighted and is considered the sewer of the human body. Now, this should surprise many of you.
Did you know that your digestive tract is responsible for about 90 percent of your overall health? Yes, 90 percent. Did you know that your entire body is fed by your small and large intestines?

First, the colon feeds your blood, then the blood cells feed all of the cells in your body including your brain cells. You’re probably asking yourself, why should this mean something to me, right? I say this because the National Health Federation has estimated that over 97 percent of the population is living in a state of constipation and has developed what is called mucous plaque in the small and large intestines. Mucous plaque creates a daily self-poisoning effect on your entire body called toxemia. This mucous plaque insists inside of almost every American and lines the internal wall of your colon.

THE HEALTH MAN: The colon’s primary function is to extract nutrients from your bowels, in other words, from the foods you eat. It has also been estimated that over 97 percent of the population absorbs less than 10 percent of the nutrients from the foods we eat. Thus, it is no wonder that 60 percent of the population is obese. Even worse, 97 percent of us die prematurely from a diseased colon and from malnutrition.

We have the ability to live twice as long as we are living today, but we need the knowledge on how to do this. The colon is one of the primary indicators as to how long we will live.

www.7dmc.com

THE HEALTH MAN: How does your body develop this mucous plaque? It all begins at about the age of six. Every time we eat foods not composed of fresh fruits and vegetables and their juices, raw nuts or seeds, a microscopic residue lines the digestive tract. This is especially true when we consume pasteurized milk products, including milk, and starches such as breads and sugar products and alcohol and soft drinks and coffee and the list goes on. These products are absolutely indigestible foods.

THE HEALTH MAN: Over a period of 10, 20, 30 years or more, these residues accumulate to develop mucous plaque a quarter inch to two inches thick around the entire circumference of the inner colon.

Take a good look at the inside of this pipe. See the residues that have developed on the inside of it?
This pipe is nearly blocked making it almost impossible for anything to pass through it. This is very similar to the average colon. We have taken it for granted that what we put into our mouth is going to come out of the other end of our digestive tract, you know, the part that nobody wants to talk about, your rectum.

I find that most people don’t like to talk about this part of the body because most feel embarrassed as most are either living in a state of perpetual constipation or have other bowel dysfunctions.

Are you one of millions who take laxatives? I was one of those people once. We have just not been taught how to cleanse or to maintain cleanliness, especially in our colon, which is connected to our rectum. Why is it that we clean every other orifice except the filthiest? The colon is analogous to a sewer in your body and needs to be maintained just like every other orifice in your body.

Take a moment to think about this. What if you neglected any of your other body openings? For example, imagine not brushing your teeth or cleaning your ears for 10 years or more. It would be foul to say the least, right?

Now, imagine the condition of your colon. It is time that everyone gain awareness of the overlooked
colon and the necessity of having a clean colon because your health depends on it.

This is how a perfect colon should look. Contrast this with how the average American colon looks. See how distorted the appearance of the neglected colon is?

ON SCREEN: (Scrolls at bottom of screen throughout the entire infomercial)

If Americans stopped feeding grain to cattle, the excess grain could feed 500 million people, not to mention the land that could be used to grow food instead of being used for grazing cattle. THE HEALTH MAN: Every American has colon disease or colon degeneration. Statistics show that
colon cancer kills 400 percent more people than AIDS, even more than breast cancer and prostate cancer.

The good news is you don’t have to live embarrassed any more. The Seven Day Miracle Cleanse Program is a professional, internal cleansing system and has eliminated all types of constipation, as well as other bowel dysfunctions, such as irritable bowel syndrome. It is the best cleansing system available and cannot be found in any store.

Another danger of mucous plaque is that it houses toxins, such as heavy metals, which are major contributors to Alzheimer’s Disease. It also houses parasites, fungi, worms and harmful bacteria, each of which can weaken your immune system. The elimination of this filth is one of the key components in achieving perfect health and in building a pain-free body for both young and old.

I challenge any person, any organization to prove me wrong. What I am talking about is real. It is never too late to benefit from the Seven Day Miracle Cleanse Program, a rejuvenation system.

Noble Prize winner Alex Corelle (phonetic) stated that if the cell is cleansed and nourished properly, it could live indefinitely. Just think of the possibilities.
ON SCREEN: (Scrolls at bottom of screen throughout the entire infomercial)

-- inflammatory bowel disease, dysplasia, bowel cancer, and others, are associated with contaminated mucous plaque. No one can be healthy without a strong, clean liver. A toxic liver --

THE HEALTH MAN: It is now time for us to realize our potential in this life and stop taking it for granted.

When are you going to get passionate about your health? You now have the opportunity to really do something about it.

I would like to take a moment to pay tribute to one of the greatest pioneers of nutrition and internal cleansing, Dr. Norman Walker, a man who lived to a healthy 118 years.

ON SCREEN: (Scrolls at bottom of screen throughout the entire infomercial)

A toxic liver results from a toxic bowel, and leads to disease. 50,000 Americans die each year from colon cancer. Cleanse your colon for optimal health.

THE HEALTH MAN: This was a man who began his crusade at the age of 40. At the age of 100, he had stated many times he had felt stronger and had more vitality than when he was 30. Can you imagine the possibilities?

He had constantly talked about the need to maintain a clean colon and to drink plenty of fresh vegetable juices. He was living proof of the potential of each and every one of us in this lifetime.

How easy is it to eliminate constipation? I know that if you complete just one Seven Day Miracle Cleanse Program, you will have regular, healthy bowel eliminations just as you did when you were a child. Fecal waste products should stay in your system no longer than 24 hours, although six to eight hours is ideal. The average time is 72 to 96 hours, which gives fecal matter enough time to putrefy and build up toxins that can affect every part of your body, especially the immune system.

Can you imagine eliminating constipation in
just seven days of your life? How long have you been

If we want to be free of all the self-created
pain, we must cleanse and purify every aspect of our
bodies and minds. A Yale University study revealed that
vegetarians have nearly twice the stamina as meat eaters.
The Journal of the American Medical Association reported
that a vegetarian diet can prevent 90-97% of all heart
diseases. The --

THE HEALTH MAN: I feel the medical industry
has done a superior job of making us feel inferior about
taking care of our own health. Also, they have
intentionally made us believe that our own health is too
complicated to figure out for ourselves and that we need
to depend upon them to do our thinking for us. Visiting a doctor is nothing more than experiencing intellectual degradation. Just like mindless robots, we go to a doctor every time we get sick looking for sympathy or for a quick fix in the form of an unnecessary drug. We have blindly bought into credentials rather than using our own faith and God-given common sense.

As Voltaire stated, a physician is one who pours drugs of which he knows little into a body of which he knows less.

KAREN: This is such a better alternative than going and being medicated, you know, with medicine that has side effects and, you know, the TV commercials, my kids laugh at them. Oh, yeah, Mom, right, you know, liver damage, kidney damage, heart attack, sure, we want to -- you know, we want to take that. And that’s true.
People -- anybody -- if my kids notice it, everybody’s going to know. Why would I take that medication? You know? There’s got to be a better way. Let’s get back to nature.

-- to meat eaters. World starvation is well connected to meat-eating habits. If Americans stopped feeding grain to cattle, the excess grain could feed 500 million people, not to mention the land that could be used to grow food instead of being used for grazing cattle. Only raw foods have life force and enzymes, and they are more important to our health than taking vitamins, minerals and amino acids. Drugs have no life force, no nutrition, and no enzymes, but herbs have them all. The regular use of an excellent antioxidant formula can protect and maintain your body in optimal health.

THE HEALTH MAN: Are you intelligent people? Of course you are. I’m here to tell you that the only person that can heal you is you. You create your health problems, you can uncreate them.

So, what’s missing? All you need is the right knowledge on how to eliminate the filth, this mucous plaque, this blockage from your colon? And, more importantly, to maintain a clean environment for the
prevention of sickness and disease in your body. Is changing your diet the solution? The best diet isn’t any better than the worst if you don’t remove the old mucous plaque first.

Remember what I said earlier. Consumers in America absorb less than 10 percent of the nutrients from the foods they eat. If you are serious about improving your well-being, then the elimination of mucous plaque is the key to success.

THE HEALTH MAN: Eleven years ago, I was diagnosed with skin cancer and breast cancer, although I was in perfect physical health. I had been living with open sores on my body that would never scab or heal.

ON SCREEN: (Scrolls at bottom of screen throughout the entire infomercial)

An exact pH is necessary for blood purity, enzyme activity, and full immune potential. More than 90% of the American population has lost the proper pH balance. THE HEALTH MAN: Then a lump developed in the
right pectoral area of my chest. It grew to the size of a golf ball. Within nine months, the pain grew to be so unbearable that it consumed my every thought and I could not take the pain any more. I was in serious denial to think that anything could be wrong with me. After all, I was in perfect physical shape.

So, I went to a doctor and after many, many tests, it was not only determined that I had breast cancer, but I had skin cancer as well. I will never forget how much I was gripped with fear at that moment. I was dripping with sweat, my heart was pounding so hard I thought it was going to burst through my chest. I felt like the walls were closing in on me.

No one can be healthy without a strong, clean liver. A toxic liver results from a toxic bowel, and leads to disease. 50,000 Americans die each year from colon cancer. Cleanse your colon for optimal health. One third of the American people now have candida, which can weaken the whole body, especially the immune system.
More than 55 million American children with worms.  
Parasites protect themselves from most de-worming measures by burying themselves inside or underneath the impacted mucous layers. Parasites may be microscopic in size or as long as 30 feet (or longer).

Parasite disease symptoms mimic many other diseases, thereby avoiding easy diagnosis. Once parasites are in the body, the only way to get them out is to get rid of their environment of filth, for that is where they live and that is their --

THE HEALTH MAN: And then the doctor said that he wanted to schedule me for surgery, chemotherapy and radiation. There was no way I was going to have any of this done to me because I watched my grandmother die within three weeks after the same treatment. I knew that I was going to have a different fate. So, I rushed out of the doctor’s office. My faith was extremely strong, but I knew that I didn’t have much time and that I needed to find a healing solution fast.

I was smart enough to know that surgery would only remove the symptom of my illness, but not the cause. I was only interested in the cause of my disease. I remarkably found a simple and easy bowel cleansing program within one day. Faith really works when you are
connected to the source of God.

I didn’t know anything about this program, so I was very skeptical. But I was told that many people had healed themselves of just about every health infliction conceivable. I started my first Seven Day detoxification program and I will never forget what happened on the fourth day. The pain in my tumor had vanished. I was also experiencing an overwhelming feeling of peace and tranquility. I knew that I had tapped into the source of healing.

Within seven days on my first program, the improbable happened. My skin cancer sores had scabbed over. Within 14 days, they had healed completely. I repeated this program every three weeks until my tumor had completely disintegrated. And this process took only four months.

I had also realized through the visual experience of examining the mucous plaque that poured out of my body during the cleansing process that this material is very, very toxic and poisonous. In my opinion, it is the true source of sickness and disease. This lifetime of residues, this mucous plaque was poisoning my bloodstream, my cells, my entire body every day until my tolerance was so depleted that it left my body vulnerable to disease. This is typical of every American and this
means you.

At least 50% of the American people tested for allergies reacted to dairy products. People who use the 7 Day Miracle Cleanse have found mucous plaque being eliminated from their bodies and most of them have improved their health, increased their energy, and eliminated a large spectrum of disease conditions.

THE HEALTH MAN: After healing myself, I had decided that I was going to dedicate my life to sharing this knowledge with everyone. A few years after extensive research of nutritional supplements, bowel cleansing, disease, juice therapy, herbs and other associated products, I had developed the Seven Day Miracle Cleanse. It was my goal to mainstream this wholesome truth of healing and wellness so everyone could have the same opportunity to create a perfectly healthy body.

Since then, my program has helped thousands of people overcome just about every health problem feared today, including AIDS --

on the surgeon’s table under the knife? Would you pay a million dollars, a $100,000, $10,000?

At this moment, I offer you the opportunity to take charge of your health. Celebrities pay as much as $5,000 for this identical program, but your cost is less than one visit to a doctor at only $89 plus shipping and it comes with a money-back guarantee.

MALE ANNOUNCER: First, you will get the Seven Day Miracle Cleanse handbook which describes the easy, step-by-step instructions to prepare you for the cleansing experience and to guide you through it. There are three different programs from which to choose, a program for everyone.

You will also get my Parasite and Worm Eliminator, Parasine 2. This product is taken before the seven-day program. It eliminates or lessens parasites and worms. The average person can harbor millions of harmful parasites, especially throughout the digestive tract. It is a fact that over 50 million children die each year from parasites worldwide.

According to the USDA, the average cubic inch of beef contains up to 1,200 larvae. If you do not wash your vegetables, larva can get into your system. It is estimated that 80 to 92 percent of the population suffer from parasites and don’t even know it. This is because
by the time the symptoms appear, the parasites have
probably been in your system for 10 to 12 years. What we
once thought was an affliction of Third World nations has
become the disease of Americans.

This is my Herbal Mucous Eliminator, the
catalyst in preparing and eliminating the mucous plaque
from the inner walls of the small and large intestines.
I had tested all the similar products available to find
that the HME is superior and is composed of the finest
organic herbs available.

This product is my awesome Super Boost Greens,
a powerful antioxidant as well as an alkalizer to balance
the pH level in your blood. Everyone should be taking
greens like this one every day. As you consume acid-
forming foods, your blood’s pH level is adversely
affected. Your blood will automatically leach minerals
from your bones and muscles. Our bones can become
brittle and shrink and our muscles lose their tone as we
get older. The Super Boost Greens can replenish these
minerals. This is a one-month supply and it is
recommended for continued daily use. Greens are
essential in the cleansing process because it supplies
our body with vegetable protein, chlorophyll and trace
minerals necessary for rejuvenating the human cell.

BRIAN COLLINS: Hello, I’m Brian Collins, and with me today is Karen Green. Welcome to another edition of the new Seven-Day Miracle Cleanse.

I’m very excited to tell you about one of the most popular colon cleansing, weight loss and body rejuvenation systems in America today. What makes this remarkable product unique is how it focuses on reducing toxic dead weight, bacteria and parasites in your digestive system that not only affect your health but can result in unwanted weight gain.

These toxins and parasites can also be responsible for many common health problems, like constipation, colon problems, bloating, gas, upset stomach, and they can be a damper on the immune system. You may be carrying the extra weight of sludge and fecal matter in your colon.

On today’s show, we’ll discover how that happens and what you can do about it.

You’ve probably never heard of anyone losing
weight through colon cleansing. So, get ready to learn all about it and change your life.

KAREN GREEN: It changed my life. Hi, I’m Karen. I’m a 44-year-old mother of eight. It’s true. I have eight children and most are still at home.

BRIAN COLLINS: Forty-four years old with eight children? How do you keep up with them?

KAREN GREEN: Believe me, it takes a lot of time and energy to keep up with even one child. Now imagine what it’s like with eight. I have a very fast-paced life and it didn’t help when I started eating fast food. I gained weight. I had absolutely no time or energy to care for myself. All I could think about was getting through the day and collapsing on my couch at night.

Then something wonderful happened. I found the 7-Day Miracle Cleanse Health Rejuvenation System. Wow, what a difference it made. Now, I have more energy, I lost weight. My stomach is flatter. Look. I’ve even lost two dress sizes. I’m the same size I was before having children. I never believed that was possible.

And you know what, the best part is now I have enough energy to keep up with my children.

Did you know colon cleansing is one of the best kept secrets supermodels and Hollywood celebrities to
lose weight and look great? They’ll often cleanse just a few days before squeezing into those expensive dresses on award show nights.

Well, it’s a secret no more, and it’s a good start to look and feel great again.

BRIAN COLLINS: Living healthier isn’t complicated. Look at Karen. She’s the perfect example of how easy it is to use the 7-Day Miracle Cleanse and how much it can renew your life.

We’re going to show you how to get your body back to its optimal health, lose weight and have more energy, too. It’s easy and it works.

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: Yes, Brian, it is incredible. And it’s wonderful to have so many satisfied customers. This is definitely my calling in life, to help others improve their health. The healthier people are, the happier they are, right?

KAREN GREEN: Right. And it’s so unfortunate
that millions of people suffer every day from all kinds of digestive problems and most would benefit from using the 7-Day Miracle Cleanse.

BRIAN COLLINS: Why are so many people in the dark about good digestive health?

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: It’s a touchy subject, Brian. Most people don’t want to talk about constipation, digestive issues and irregularity. It’s just something that a lot of us find embarrassing.

KAREN GREEN: You’re right. It’s certainly not something I’m going to talk about at a party.

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: Of course not. But, still, digestive problems are one of the most common health problems people have. And sooner or later, you’re going to have to deal with it because our diets aren’t getting any better.

As a result, Americans spend billions of dollars every year on a host of products to help them with their poor digestion and elimination issues. Everyone at one time or another has been constipated and we all know how uncomfortable that is, right? Constipation affects your health, your weight and even robs you of your energy.
And, believe me, I have lots of experience with constipation. I felt like my colon was clogged for years.

BRIAN COLLINS: And if you are constipated, you know how frustrating and even painful that can be.

KAREN GREEN: And if you’re constipated, just try not to think about it.

BRIAN COLLINS: It’s impossible. What causes constipation anyway?

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: I think that most of it comes from eating the wrong foods and too much of it. We all seem to want super-size food portions, right? As a result, over time residue remains from undigested food and fecal matter forms on the inner walls of the intestines. Poor digestion and poor colon health has been linked to many health problems, too.

KAREN GREEN: What do we need to do to ensure we have good digestion?

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: You have to start right now, and you know what I always say, take back your health today.

BRIAN COLLINS: The 7-Day Miracle Cleanse works because of our proprietary herbal cleansing formulas,
which are second to none. We are the original and the first to perfect the 7-Day Cleansing System. The result, you can have consistent bowel movements, your digestion is improved promoting good colon health, it helps you lose weight and your energy is dramatically increased.

BRIAN COLLINS: Now, we’re going to show you just how easy it is to use the 7-Day Miracle Cleanse Health Rejuvenation System and why it’s vitally important for your good health. We use only the finest herbs including organic extracts and wild-crafted whenever possible. This ensures the maximum potency. That, along with our unique proprietary formulas, are some of the reasons why the 7-Day Miracle Cleanse works so well.

ON SCREEN: 7 Day Miracle Cleanse

Portrayal of actual customer.

UNIDENTIFIED FEMALE: You’re actually cleaning your body so it can work again.

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: Now, let me tell you how the program works. The 7-Day Miracle Cleanse is a triple action system. The pre-cleanse formula is designed to help in the elimination of toxins and pollutants, including parasites and worms. Now, just because you can’t see parasites doesn’t mean that they’re not there. Most parasites are so microscopic, they can’t be seen by the naked eye. But after they find their way into your digestive tract, they begin to rob and absorb your nutrients, plus they grow and multiply in a very short period of time. Parasites have been linked to many different health issues.
BRIAN COLLINS: Is that right?

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: That’s right, Brian. And my cleansing formula is designed to gently soften and remove the toxic fecal matter and sludge from the walls of the intestines and colon. This is typically the undigested food and uneliminated fecal matter. Get rid of this unwanted material, guess what, you’ll feel lighter.

BRIAN COLLINS: That only makes sense.

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: My specially formulated greens help replenish electrolytes, minerals, amino acids and micro flora, all needed during the cleansing process. Once you have removed the sludge build-up from your colon, your body will be able to absorb these nutrients more efficiently and you’ll feel better because of it.

ON SCREEN: 7 Day Miracle Cleanse

Portrayal of actual customer.

UNIDENTIFIED MALE: I have so much energy, I just feel wonderful.

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: We suggest continuing to use the greens formula after the cleanse to keep you feeling great.

BRIAN COLLINS: Karen, you have a very busy
life. Just how easy was it to use the 7-Day Miracle Cleanse?

KAREN GREEN: Well, even with my eight kids and the crazy schedule I have, the system was easy to use and the directions were simple to follow.

ON SCREEN: 7 Day Miracle Cleanse

Portrayal of actual customer.

UNIDENTIFIED FEMALE: I find the 7-Day Miracle Cleanse is wonderful because it’s very organized. It gives you step-by-step directions on what you need to do.

BRIAN COLLINS: Health Man, how often do you use the 7-Day Miracle Cleanse?

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: I did a lot of experimenting, and just like Karen, a few times a year works great for me, too. It keeps my outlook positive and keeps me strong.

BRIAN COLLINS: Well, do you recommend everyone doing a cleanse a couple of times a year?

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: A few times a year works great for me. However, lots of people find just doing it one time makes an incredible difference in their life. Try the 7-Day Miracle Cleanse for yourself or for a friend or family member who might be looking to improve their...
health. The 7-Day Miracle Cleanse, it’s about a healthier lifestyle which helps you look better and feel great. It’s about having a better and healthier life. Aren’t you worth it? Of course you are. We all are.

**ON SCREEN: 7 Day Miracle Cleanse**

Portrayal of actual customer. The 7 Day Miracle Cleanse is intended to be used in conjunction with a healthy diet and exercise which is included in the Healthy Living Guide. Diet and exercise is necessary for long-term weight loss.

**UNIDENTIFIED FEMALE:** People at work have noticed I’m happier now. I’ve lost weight and look healthier.

**BRIAN COLLINS:** If you’re like most people today, your life is busy and fast-paced, meaning you probably take your digestive system for granted.

**KAREN GREEN:** I bet you’re asked this question a lot. When you use the 7-Day Miracle Cleanse, do you have to take time off work?

**ON SCREEN: 7 Day Miracle Cleanse**

**THE HEALTH MAN:** I do get asked that a lot, and the great news is is that, no, you don’t have to take time off work or anything else you do normally. From the very start, I designed the 7-Day Miracle Cleanse so you can use it and go about your normal daily life.
KAREN GREEN: Come on. How can we cleanse our digestive system and not have to be near a bathroom all the time?

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: Because my products contain only the finest herbs, herbs that cause a gentle, natural effect. This results in normal elimination.

KAREN GREEN: Well, that’s a relief, in more ways than one.

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: The 7-Day Miracle Cleanse is specifically formulated to remove waste and toxins that have accumulated over time in the gastrointestinal tract and specifically the colon. This contributes to a healthy GI tract and can be helpful in weight control.

BRIAN COLLINS: Is it true that colon health is linked to a variety of health issues?

ON SCREEN: Call Now For More Information

1-800-949-7169

www.7dmc.com

THE HEALTH MAN: Yes, Brian, the ingredients in the 7-Day Miracle Cleanse can remove waste and toxic build-up in the colon, remove parasites and worms, promote a healthy balance of micro flora, aid in weight loss, boost the immune system, promote energy and
generally contribute to better overall health.

BRIAN COLLINS: That’s very impressive.

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: Sometimes the food in your digestive system just sits there. It can get so clogged up, it can’t move.

BRIAN COLLINS: And it doesn’t help that we now eat larger portions of processed foods that are loaded with indigestible additives and ingredients.

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: That’s sad but true, Brian. Today’s modern diet is full of indigestible additives and ingredients.

KAREN GREEN: And when you consider that we now live more stressful lives, spend more time sitting in our office and in our cars being inactive, well, that takes a huge toll on our bodies, right?

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: It sure does, Karen. And as if stress isn’t enough for your already overloaded intestines, there’s also the added strain of environmental pollutants that your body’s been exposed to for years, not to mention parasites that can hitch a ride in your food and live inside you without you even knowing it.
KAREN GREEN: Parasites, eeewww.

BRIAN COLLINS: That’s a scary thought. Well, what happens if you have parasites?

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: It’s scary and dangerous, Brian, because when you’re not eliminating every day like you should, your colon can become a shelter for unhealthy micro flora and parasites, like protozoans and worms.

BRIAN COLLINS: How do we get these parasites?

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: Parasites are transferred from animals to humans and from humans to humans. They are transferred to us through contaminated foods and water. One common source of parasites is improperly washed fruits and vegetables and you can’t see these parasites either. Most of them can only be seen through a microscope.

KAREN GREEN: But how do these parasites affect us?

ON SCREEN: 7-Day Miracle Cleanse

THE HEALTH MAN: First, they find their way into your digestive tract and then they begin to rob you of your nutrients. They grow and multiply very quickly and they are linked to a host of health problems.

KAREN GREEN: Wow. I didn’t know that.
ON SCREEN: 7-Day Miracle Cleanse

THE HEALTH MAN: And that’s why I developed the 7-Day Miracle Cleanse, to not only cleanse your digestive system of all the sludge and toxins, but to also reduce the parasites.

BRIAN COLLINS: That is really amazing.

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: Brian, Karen, how long do you think your intestinal tract is?

BRIAN COLLINS: I don’t know, 10 feet?

KAREN GREEN: No, it’s longer, at least 15, right?

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: It’s actually much longer. In fact, your entire intestinal tract is about 25 feet long.

BRIAN COLLINS: Wow.

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: It’s true. And there’s lots of twists and turns in it, lots of places for stuff to get stuck and backed up, and it’s also possible your digestive system may be impacted with unwanted pounds of fecal matter and sludge.

KAREN GREEN: Well, you know, that sounds like a lot of dead weight to be carrying around. This may be one reason why people have bloated bellies because
they’re carrying around all the undigested junk.

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: I’m sure that’s one of the reasons. Now, your intestines certainly don’t look like this, but let’s say that this clogged pipe represents a section of your intestines. See, there are years of fecal matter and sludge build-up. Look, it’s so clogged up that almost nothing can pass through. Your intestines can get clogged, too. This may be why so many people have irregular bowels movements and are constipated.

Constipation leaves you sluggish with low energy and even weight gain. We must keep in mind that the colon is the garbage disposal of our bodies. So, doesn’t it make sense to keep it clean and healthy? Of course it does. Can you imagine what can happen to your health if this filth is left in your colon for years?

KAREN GREEN: You know, there are many weight loss products advertised, but I never saw anyone talk about all the gunk and weight that accumulates in the digestive tract.

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: And that’s because they only focus on losing body weight. They’re not looking at your overall health.

BRIAN COLLINS: Well, it seems like everyone is
looking for the weight loss program that is simple and easy.

KAREN GREEN: Right, we want it simple and easy. But is that possible?

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: And that’s what you get with the 7-Day Miracle Cleanse. It’s fast, simple and easy to follow.

THE HEALTH MAN: I can’t do this for you, it’s up to you. You have to take action now to improve your health and lose weight. You need the 7-Day Miracle Cleanse, along with my Natural Health Man Greens, to maintain a clean and healthy digestive system.

KAREN GREEN: Because having a clean and healthy digestive system is crucial to having a healthy life.

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: You’re absolutely right, Karen.

BRIAN COLLINS: Digestive issues are among the leading health concerns in this country. You simply
cannot afford to ignore your colon health any more.

If you’re like us, you care a lot about your health. If all it takes is a little effort to cleanse your colon, lose weight and kickstart you on the way to better health, you’d want to do it, right? In fact, you’d want to do it right now.

**ON SCREEN: 7 Day Miracle Cleanse**

**THE HEALTH MAN:** In order to get the proper nutrients into the body, you have to be able to absorb them through your digestive system, and this is why the intestines need to be working great so those nutrients can find their way efficiently into your body. Your intestine feeds your entire body, and if it’s toxic, it can have an adverse effect on your health, certainly a strong reason to cleanse your colon.

**KAREN GREEN:** So, is this why we tend to feel hungry more often?

**ON SCREEN: 7 Day Miracle Cleanse**

**THE HEALTH MAN:** I don’t have any scientific proof, but I feel that this is one of the issues. When you feel hungry, you tend to eat more and that’s when you gain weight.

**KAREN GREEN:** A lot of us can relate to that. I know I can. Let’s be honest, being overweight makes most of us unhappy, right?
BRIAN COLLINS: Um-hum.

KAREN GREEN: People have tried lots of sit-ups and other exercises and still can’t get rid of their bulging tummy.

ON SCREEN: 7 Day Miracle Cleanse

UNIDENTIFIED FEMALE: I had a little bit of a pooch stomach. Following the cleanse, I noticed that it appeared smaller.

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: Exercise is great, but you got to do more. By combining the 7-Day Miracle Cleanse with our tasty recipes and exercise program, there’s no need to wait any longer to achieve a flatter stomach. You can take action now with the 7-Day Miracle Cleanse and watch the changes happen to you.

BRIAN COLLINS: It sounds like the benefits of cleansing are absolutely amazing.

ON SCREEN: 7 Day Miracle Cleanse

THE HEALTH MAN: By eliminating sludge and toxic fecal matter, you are simply cleansing and
detoxifying your colon. Here’s why. Fecal matter can putrefy on the lining of the inner wall of the colon, and as food passes through it, it becomes almost impossible for nutrients to be absorbed. It’s no wonder we can feel hungry all the time. We’re simply not absorbing the nutrients from our foods.

After using the 7-Day Miracle Cleanse, it’s not unusual for people to experience increased energy, better absorption of vitamins and minerals from foods, weight loss, and an overall healthy and clean feeling.

The 7 Day Miracle Cleanse is one of the leading Colon Cleansing and Detoxification program in America! The Healthman's laboratory has developed a specially-formulated combination of certified organic herbs with high potency for softening of mucus plaque and preparing it for elimination. The removal of mucus plaque is necessary, as it is highly toxic. It should be the starting point for improving all of your health issues, as it suppresses your immune system and causes constipation. In addition, mucus plaque reduces the efficient absorption of nutrients by the blood and slows your metabolism, causing WEIGHT GAIN. You will lose weight as a result of completing the 7 Day Miracle Cleanse. You can take control of your health today with the 7DMC. †

The 7 Day Miracle Cleanse includes: a complete colon cleanse, a parasite cleanse, and the Super Boost Greens to keep your body pH balanced.

Herbal Mucous Eliminator

The Herbal Mucous Eliminator is a unique herbal combination to assist in the removal of Mucous plaque (hardened Mucous). It helps the body to cleanse not only the eliminatory canal, but also the liver and other organs. The Herbal Mucous Eliminator is the key component of the 7-Day Cleanse to eliminate and detoxify poisons and foreign matter from the vital organs and cells of the body. This formula has been in use for more than twenty years. It contains Cascara Sagrada, Flax Seeds, Bentonite Clay, Buckthorne Bark, Aloe Vera, Senna Leaf, Peppermint Leaf, Slippery Elm. 100 Vegetable Capsules

Super Boost Greens

Our Super Boost Greens is a formulation of Spirulina, Kelp, Gotu Koa Wheat Grass, Alfalfa, Barley Grass, Kale and Orange Peel Powder making it one of the best sources of protein, vitamins, minerals, chlorophyll, essential amino acids and trace minerals. It provides necessary nutrition to increase your daily energy during your cleanse, balance your pH level and keep you healthy. After cleansing you should continue with the Super Boost Greens to take advantage of all the benefits below.
One of the main benefits of the Super Boost Greens is balancing your body's pH level. A normal level of pH in the body is 7.0, a reading of 6.5 indicates acidic and a reading below 6.0 indicated very acidic with a body more prone to disease. So it's important to keep your body pH balanced, which is why we provide a free pH test kit to help you balance the pH level in your body.

Spirulina is an all vegetable protein. It promotes healthy nerves and tissue, and is rich in vitamin B-12, iron magnesium and trace minerals. Kelp strengthens the circulatory system, helps lower cholesterol and provides optimum nourishment for the hormonal, lymphatic, urinary, circulatory and nervous system. Kelp is a good source of minerals, calcium, iron and iodine with vitamin A, C, E, K and B complex: thiamine, riboflavin, niacin, B6 and B-12. Gotu Kola is used to increase energy, and enhance sexual potency. It helps improve symptoms of varicose veins and strengthening tissue surrounding veins. It is helpful in relieving anxiety and stress. Wheat Grass, Alfalfa and Barley have been proven to benefit the blood cells, bones, glands, hair, kidney, liver, muscles, spleen, teeth and other body parts. It is used in the treatment of many common ailments such as high blood pressure, diabetes, constipation, female problems and colitis. Kale is rich in potassium and folate. It reduces the risk of cancer and protects against eye degeneration and heart disease. Orange Peel Powder is a healthy way to increase Vitamin C intake, thus improving overall health in regards to the increased immunity to cold and flu that Vitamin C provides, as well as aiding digestion and preventing food-related illnesses. 100 Vegetable Capsules

Why Cleanse?

"Out With The Old, In With The New....."

Your whole digestive system is responsible for one thing: absorbing nutrients into your bloodstream and getting the wastes or toxins out. Our modern diet of cooked and processed foods causes an accumulation of residue composed of old food, dead cells, and mucus which coats the digestive system, in particular the large intestine (colon). After years of build-up this layer can reach up to 1/4th of an inch in thickness. This may not seem like much, but the intestinal wall where nutrition is absorbed is itself only about a 1/4th of an inch thick. The pictures below are examples of the hardened mucus that exists within almost every human being. This material is the primary cause of poor health.

When your digestive system cannot function properly or efficiently, toxins and waste products build up making a perfect breeding ground for harmful bacteria, sickness, and diseases. At the same time your body is not receiving the nutrition it needs to function at its maximum level. It has been determined by the medical community that the proper balance of bacteria in the intestinal tract for optimum health is at least 80% beneficial bacteria and 20% harmful bacteria, but the typical person is just the opposite, with 80% bad and 20% good bacteria. It's no wonder the average person gets sick year after year with the same illnesses to which they should already be immune.......Cleansing the Colon

"I'm a mother of 3 children and 33 years old. I was a size 3 before having kids, and a size 12 after. My energy was low, my complexion was bad, and my eating habits were poor. Now I feel so clean inside, I sleep like a baby, my complexion is shining and I am a size 3 again. My energy is unlimited; I'm on top of the world! Thank God for the **7-Day Miracle Cleanse** tm. I couldn't imagine what my life would be today without it."

F. Bacon Manhattan, New York
I had many health problems. My doctor had me on many pills for many symptoms. My blood pressure was very high and after my first 7-Day Cleanse my blood pressure was normal. I also found the recipe section very helpful to change my diet forever, Thank You for your efforts.

King St, Louis, MI.

I'm writing you to tell you that the 7-Day Miracle Cleanse really works, I am truly amazed. I had arthritis in my right elbow very badly. I could not lift anything with my right arm. After about the 5th day on my first cleanse the pain started to lessen. I have stopped eating all acid forming foods. It has been 3 months, and I have completed two cleansing programs. My pain is completely gone. Keep up the good work, S. Harns Houston, TX.

My weight was 305 lbs. and I was diabetic. I had been going to the doctors for health all my life. After the first cleanse, I lost 27 lbs. within the first two weeks. I went back to the doctor for a check up and I no longer had diabetes. The results are that I no longer need insulin and I lost a total of 75 lbs. in 4 months. I have been recommending your product to all of my friends. It would be great if you advertised more, so lots of people can have to opportunity.

J. Cummings

I am 29 years old my health has generally been good, however 4 years ago I was diagnosed with endometriosis and told that I would never have children. Doctors began with a 9 month course of birth control to be followed be Danocryn, which I did not take. Symptoms worsened so I turned to holistic medicine with herbs and magnets. Shortly after that I was introduced to the 7-day miracle cleanse program. I completed it last January with great success. My whole life has changed for the better. Since them I have continued to cleanse and eat raw foods. The great news is I found out I am going to have a baby! The greatest gift that I could give myself was the cleanse I truly feel blessed. And I have more energy than I know what to do with. I look and feel younger. Thank You God Bless You"... J. Summer Springfield IL.

"...My father was 85 years old and did not wake up one morning. Instead of calling an ambulance and taking him to the hospital we kept him home, for 3 days I massaged
his entire body through out the day. Then a friend and I would administer a colon irrigation, shortly there after he woke up. We immediately start him on the 7-day miracle cleanse program, I could not believe how much glue like material he passed. It was no wonder why his body just shut down one day..." - J. Buccieri, Beverly hills CK

I am a mother of three before I had children I was chronically constipated all the time. My first two pregnancies where very uncomfortable. After my second child It took me forever to recover my husband had just finished the 7-Day Miracle Cleanse program and I saw what it did for him. By the end of my third pregnancy we had changed our diets to mostly raw fruits and vegetables and cut meat out Altogether. After I had the baby I started the program I felt great and Could not believe how much breast milk was producing and how last I healed. Now I have bowel movements after each meal. I honestly think I will never get sick again!" L. Busler Lancaster CA

I am 23 years old and I had not had a bowel movements in almost a month! The doctor wanted to perform a colostomy (remove my colon) an4 charge my insurance company $100,000 for the operation. I did not do it. A friend told me about the 7-day miracle cleanse program I started the program immediately after 2 days I had passed a huge-stale slimy very black stool and the smell was unbearable. I now have nominal bowel movements Thank God for the 7-y miracle cleanse program for I would not have my colon today..." H. Barnes Vancouver WA

"...I have a hyperactive colon said my doctor. I also had severe abdominal -us and blood in my stool. my friend recommended the 7-day miracle cleanse program I had a complete cleansing kit rushed to me. After I completed the program I was no longer bleeding and I had no more pain. I realized I had to change my diet after seeing for myself the many feet of sticky black mucous plague that came out of me it felt like many years where lifted from me. I became younger. I have told all my friends..." T. Blankenship NY, NY

"...Your program is easy and the most effective of all the cleansing programs I have completed. It was _ truly a very spiritual experience after the 5th Day I felt a real connection with my God-like self. Peace and Love to everyone " B Davis Palm Springs CA.
Here in New York City we like to think we have it all here, but I must admit we do not
have anymore effective cleansing program than the 7-day miracle cleanse program.
Your program is becoming known here by many. K. Kennedy Manhattan NY

I was suffering from chronic migraines for 10 years, always lagging. While doing the
cleanse my energy went to a level I could have never imagined possible, my eyes
and face brightened, my skin became smoother, my constant need for more sleep
disappeared I feel better than I have in 10 years and more alive since doing the
cleanse Your product is superior haven't had a migraine since, it has been 5 months!.
"C. Chung Malibu, Ca

"My experience to date ( I am 3 days into it ) It has been exciting. It really works! I
already feel cleaner inside and I have more energy. My first time on of the program
was negative I felt that I would have to sit by the toilet and just drink juice the whole
week. I found this not to be true and had a pleasant experience instead "- C. Harris
Eugene OR.

"...I feel better than I have in a long time and I only just started the program My blood
pressure is now normal without need for medication after years of doctoring.... My
hair and skin look and feel better and cleaner. I am sleeping better than I have in 40
years. I fall asleep faster and awake alarm in the morning and without an alarm.

Most Americans feel that they're overweight. I have some good news; your body knows exactly the perfect weight for you, if you could only stop fooling it into thinking that you're starving all the time. That is, your body can't absorb the nutrients it needs because the main organ responsible for absorption, your large intestine, is coated with hardened mucus and debris. It makes perfect sense that if you remove this old hardened mucus material it will allow the large intestines to absorb the proper nutrients. The glandular system will balance itself. The thyroid will balance the production of thyroxine and you will lose weight. †

Give your glandular system the ability to metabolize fat. Balance the body through this detoxification program, along with proper nutrition, and you can achieve a perfect normal body weight for yourself.

Producing happiness is easy; all it takes is the RIGHT EFFORT!

Set started and complete the cleanse, the booklet includes a follow-up recipe section so you can change your diet with fresh foods and juices. Change is needed for long-term results. Forget about drastic weight loss fad diets. You will complete six 7-day programs in the first year, and 1 program every 6 months thereafter to maintain a clean digestive tract. After completing your first 7-Day program you are going to feel something you haven't felt since you were a child and that is ..........HIGH ENERGY.

† "These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease."
Beginning Of Disease

Dr. Bernard Jensen said, "Every tissue is fed by the blood, which is supplied by the bowel. When the bowel is dirty, the blood is dirty, and so on to the organs and tissues."

Attack the cause, not the symptom...

Your body contains almost all the resources it needs to fight off any disease or sickness if it is unencumbered by the things that slow it down or cause it to function erratically. If you attack the cause of the problem, instead of the symptom (e.g. surgically removing a tumor attacks a symptom) then the body's own healing and balancing systems can do their job to the fullest to regulate and to metabolize body weight, heal and prevent major and minor illnesses and restore vitality. This, in turn, affects your appearance, causing you to look and feel younger. Artificial, quick cures, including pills and surgery don't get to the root of the cause. The 7-Day Miracle Cleanse attacks the cause of most sickness and disease by removing the hardened, rubber-like, mucus layers which promote sluggish muscle tone and the inability of the large intestine (colon) to eliminate properly. Attacking this pollution and congestion allows the body to begin its own....SELF HEALING.

Once mucus residues begin to form on the walls of the intestinal tract it encourages more hardened mucus plaque layers to form because the colon becomes sluggish, making the development even easier. Any accumulation of toxins and harmful bacteria compromise the immune system by polluting the bloodstream and lymphatic system. The body collects these toxins in the weakest part of the body. The symptoms of disease are generally the result of a toxic colon. Disease can only be overcome when we address the cause, rather than by treating the symptoms. The "7 Day Miracle Cleanse" attacks the cause by removing the hardened mucus layers which are the source of most disease.

Sickness And Disease Aren't Natural

Due to conditioning that leads to poor eating habits, most people over the age of seven start to develop problems in their intestinal tract. These problems may be the beginning of a number of sicknesses and diseases such as a bad complexion, premature aging, fatigue, cancer, diabetes, etc.
It is imperative to keep your digestive tract free from hardened mucus, as it is estimated that at least 90% of disease can be contributed to an unhealthy and filthy digestive tract. The bowels and colon should be free of mucus and cared for in the proper way before effective healing can begin.

As people get older and the mucus layers start to accumulate, malnutrition and toxemia can result in a diseased colon among other unhealthy conditions.

We must periodically remove these hardened mucus layers throughout our lives in order to live with clean, healthy and disease free conditions.

This hardened mucus is like hard rubber. One would have a difficult time cutting it. Many autopsies reveal that the colon can be so impacted that it can balloon. In extreme cases the colon can be stretched up to 12” in diameter with only tiny holes for the stools to pass through. A healthy colon weighs about 4 lbs. Most people carry around 5-15 lbs. of impacted fecal matter in their colon. This causes their bellies to protrude outward. Don't let a flat stomach fool you. This hardened mucus can be loaded with toxins, dead cells and parasites, along with gross filth. We hope at this point you are beginning to realize the necessity of a clean intestinal tract.

The body works as one organism, but the house cleaning begins in the intestinal tract. Get busy and start the cleansing process...Why 7-DMC

† "These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.”
Parasites thrive on an unhealthy intestinal tract. Mucus is a perfect breeding ground for parasites. It has been estimated that over 90% of the population in the U.S. is infested with parasites. Over 50 million children have worms. Worms are one of our deadliest enemies. Parasite infestation is growing at an alarming rate, due to people eating less fresh fruits and vegetables and eating more cooked and acid forming foods. Many health problems start with worms parasites colonizing throughout the digestive tract and vital organs. The most common symptoms are lack of joy, bowel problems, chills, fever and even epilepsy. The 7 Day Miracle Cleanse begins the removal of this reeding ground by removing their ideal environment of mucus and filth in the intestinal tract.

Purify And Cleanse Yourself

Cleanse The Internal Body

And Emotions

The Way God Intended It

To Be!

Very few people are aware of the necessity of removing harmful bacteria from the intestinal tract and replacing it with healthy bacteria. This will produce a strong immune system and increase calcium, vitamins, amino acids, and control acidity in the intestines. When unhealthy bacteria dominate good bacteria, a weak immune system, vulnerable to
isease and sickness may result. The **7-Day Miracle Cleanse**™ prepares the intestinal tract for the healthy bacteria necessary for a strong immune system.

Taking our specially formulated Parasite 2 is recommended before you do the actual 7-day cleanse because it eliminates parasites including worms. The cleanse eliminates the dead parasites from your digestive tract.

7-Day Miracle Cleanse

The Road To Vibrant Health

Since the body is composed of living cells and enzymes it is best to nourish it with foods that can supply the cells with the living nutrients and enzymes it needs. Enzymes are the catalysts for proper digestion and assimilation. They aid in converting one substance into another that the body needs for nourishing the billions of cells. Without live enzymes, the cell deteriorates and degenerates, losing its charge and life force. Cooking destroys food enzymes causing a lack of energy. Cooked foods lack the substances your cells need to function properly.

The highest concentration of essential nutrients are found in fresh fruits and vegetables and their juices, and also in raw nuts and seeds. These fresh fruits and vegetable juices will bring a vast amount of nutrients into the blood within minutes, stimulating the pineal gland located in the brain. This stimulation energizes the entire body resulting in a vibrant, energetic charge that fills you with a vitality you haven’t felt since you were a child.

You might be thinking, "Yeah, that's great but do I have to give up Mc Donald's and espresso?"
NO YOU DO NOT, but by trying just one 7-Day Miracle Cleanse™ you will probably be more concerned with how you can maintain this energetic feeling with a Big-Mac. I could go on all day and about how euphoric and vitally alive you will feel during your first cleanse but you simply must experience it for yourself. Here are the.................BENEFITS.

Weight Lose | Beginning of Disease | Colon Cleansing | Parasites | Testimonials
The average person uses only 10% of the nutrients in their food! ↑

Over the past 75 years, the standard American diet, lifestyles and environment have changed dramatically, placing a huge burden on our eliminative systems. Diets centers on refined foods, meats, and dairy products have left our colons clogged and often unable to self cleanse. Tiny hair-like projections called villi lining our colons absorb nutrients and carry them into the blood. When the colon walls are coated with hardened mucous plaque, the villi cannot function properly. We live not by what we eat, but by what we digest, absorb and assimilate. Even the healthiest organic diet won't be any better than the worst diet, if the colon is not clear of this filth. After cleansing, many people find that they can eat 1/3 - 1/2 the amount of food they ate before, yet feel more energized because of the better absorption and assimilation. Cleansing clears out the old layers of wastes and unfreeze the peristaltic muscles so you can once again "self cleanse" as nature intended.

Pollution causes a toxic inner environment. Since World War II, the amount of pesticides, pollutants and toxic waste in our environment has increased dramatically.

Most of us walk around with toxins circulating in our bloodstream. No wonder we feel tired, sick, overweight and generally uninspired! Greater stresses, rushed lifestyles and lack of exercise have also taken their toll.

13 common symptoms of toxicity:

1. Headaches
2. Skin problems
3. Bad breath or body odor
4. Candida
5. Depression
6. Mental dullness
7. Low energy
8. Stomach bloat or gas

9. Poor digestion

10. Weight gain or unnecessary weight loss

11. Constipation

12. Premature aging

13. Illnesses & degenerative diseases

Your liver can only detoxify so many of these poisons before it becomes overloaded and weak. In some cases, the liver stops functioning altogether, leading to serious diseases like jaundice. A weakened liver also keeps toxins circulating through your blood longer, increasing the level of toxicity. The increase of food-borne and water-borne intestinal parasite infections may be responsible for many illnesses, including stomach flu and chronic fatigue.

Clean body = clear thinking

We can’t expect to have sharp minds and luminous spirits when our bodies are polluted. Many people report more clarity, greater alertness, overwhelming joy, incredible insight, and even better sex after cleansing!

Vibrant Health

What is Vibrant Health? People tell us all the time that they have heard of vibrant health but don’t really know what it is. Once you have began the 7-Day Miracle Cleanse™, and start drinking fresh vegetable and fruit juices your cells will become very active and if you were to look at your blood under a microscope you will see for yourself.

The Cleansing Programs

The first step in completing the 7-Day Miracle Cleanse is to determine which of the two program types would best fit your lifestyle, goals, and needs. You can choose between Program 1, the “Super Cleanse” and Program 2, the “Ultimate Cleanse”.

Program 1: The Super Cleanse, an overview

This is a 7-day program that allows for a small salad and soup to be eaten on each of the seven days, in addition to the other products. The results can be very good with this program, but the best results are obtained from the Ultimate Program. The Super Cleanse is designed for people who cannot imagine refraining from eating solid food for seven days; however, once this program is completed, it is then easy to envision completing the Ultimate Cleanse Program in the future.

Program 2: The Ultimate Cleanse, an overview

This program will produce the best results in almost every aspect of your health! It is designed for removing hardened mucus plaque from the digestive tract: the key to achieving PERFECT HEALTH! It will be one of the most incredible journeys of your life so be prepared for change. Many issues may arise during this cleansing process because when the body releases high levels of toxins and parasites into the bloodstream, your body goes into a healing crisis until it finds a way that can enable it to get rid of the toxins. The 5th, 6th, and 7th days are the best because the herbs have had time to soften the mucus plaque, making it easy to dislodge from the walls of the colon. Not only can you expect to lose 8-15 pounds from the chin, hips, thighs and abdominal areas, you will also look and feel 10 – 20 years younger, and experience a dramatic increase in energy and vitality. Ideally, you should complete six of the 7-day Ultimate Cleanse programs in the first year. This will help return your colon to its original shape and remove the source of most sickness and disease - the hardened mucus plaque existing in it.

Preparing for the Cleanse:

Parasine 2 and Super Boost Greens

After choosing which program you will complete, it is important to prepare for your cleansing journey. Here are some easy steps to help you prepare the pH level in your body and to enjoy a successful cleansing experience. First, ten days before starting your cleansing program begin taking the Parasine 2. Take ten capsules a day until the bottle is empty. The capsules should be taken before bed with either water or juice. This is one of the best parasite eliminators available.

Each morning, take six capsules of the Super Boost Greens with water or fresh juice. The Super Boost Greens mix acts as an alkalizer to build your alkaline reserves. If available, drink at least one ounce or more of wheatgrass juice per day for at least five days before starting your cleanse. Increase your intake of fresh vegetable juice during these ten days, as well. During these ten days, eating mostly alkaline foods such as fresh vegetables and fruits and their juices will almost assure you of achieving the recommended pH for starting the 7-day programs. Eliminating items such as coffee, alcoholic beverages, meats, dairy products, white bread, and sugar products are equally important because they are very acid-forming.

The Cleanses
Program 1: The Super Cleanse

The Super Cleanse is a 7-day program that provides for you to eat only fresh vegetables or salads and fresh fruit each day. These are the ideal foods for seven days. It is not as effective as the Ultimate Cleanse, but it is still very detoxifying and you will enjoy the wonderful benefits of cleansing.

For each of the seven days, you will repeat the following instructions:

1. Take seven capsules in the morning and seven capsules in the evening of the Herbal Mucus Eliminator with either ice or water.
2. Take six capsules of the Super Boost Greens with either juice or water.
3. (Optional) Drink two cups or more per day of Health Man Detoxification Tea. (Purchase separately)
4. Drink as much fresh vegetable juice as possible, such as carrot juice or carrot juice combinations.
5. Ideally, you should consume only fresh vegetables or salads and fresh fruits each day.

Program 2: The Ultimate Cleanse

This program really works, it’s simple, and it’s for both young and old. The 7-Day Miracle Cleanse Ultimate Cleanse program includes a resting period for your digestive organs. Only fresh juices and herbs will be consumed. Juices take very little energy to digest and are assimilated in minutes. You are going to “clean house” in your body. Millions of bad cells inside you are going to be burned up and discarded. During your cleanse, the focus will be on the colon, the most important organ in your body. Imagine a 40-year-old pipe in your house with layers of slime that have built up and hardened so much that you can barely cut it with a knife. That is what happens inside your colon, except the slime is analogous to mucus plaque. Your colon is like a sponge with pores designed to extract the final nutrients in your bowels as they pass through the five feet of your colon. So, visualize a rubbery material as hard as that of the tires on car, this rubbery material exists in about 99% of the population. You can be almost assured of having this condition. Most people have a build-up of hardened mucus at least 1/4 of an inch thick on the walls of their colon. People who are overweight are likely to have a much thicker layer. You can eat the healthiest foods available and yet extract very little, if any, nutrients. The average person absorbs less than 10% of the nutrients from food. First, you must clean out this rubbery, hardened mucus layer. A clean colon can absorb 70 to 100% of the nutrients contained in food, allowing you to flourish with vibrancy and vitality. You must clean out the old (mucus plaque) and bring in the new (habits). This is the beginning of the road to perfect health, perfect body weight, and high energy, looking and feeling younger, and living a healthy and vibrant life.

Keep your colon clean! You need to follow the instructions for preparing for the cleanse but you also need to prepare yourself mentally and physically for the cleanse so that you do not give yourself any excuses to abandon the program, the 7-Day Miracle Cleanse will be one of the most incredible experiences of your life. It is very important that you complete the preparation. You must bring your body through the transition from eating bulky foods to eating fresh fruits and vegetables and their juices. The transition will make it easy for you to be successful. Complete the full 7-day course. Remember, you have a lifetime of hardened food residues impeding your health, so take 7 days of your life and start removing the layers. Know why you are going to complete the cleanse, whether it is to improve your health, reduce your weight, or to clear your complexion. It also helps if you have family around to be supportive while you’re doing your cleanse. Now let’s get to the cleanse!

Items needed to begin the Ultimate Cleanse:

- Colon bag, or a colonic therapist. (Look in the yellow pages or call the International Colonic Therapist Association.) A licor or a source of fresh juice for each day. The fresh juices will supply you with the nutrients your body will need daily. 7-Day Miracle Cleanse Herbal Mucus Eliminator will aid in the loosening of the hardened mucous layers in your colon. 7-Day Miracle Cleanse Super Boost Greens is your vegetable protein to help maintain your strength. (Optional) Health Man’s Detoxification Tea (purchase separately) Potassium Broth
Potassium Broth Recipe
- 1 potato
- 1 carrot
- 1 onion
- ¼ head of cabbage

Put all vegetables into large pieces and steam them in six cups of distilled water for 5-8 minutes. Season them with vegetable salt, Bragg's liquid aminos, or Herbs de Provence. You can purchase these seasonings at your local health food or natural food store. Remove the vegetables from the broth and do not eat them.

In each of the seven days:

In the morning, prepare or purchase ½ - 1 gallon of fresh juice such as carrot, apple, watermelon, cantaloupe, or rape. If you have Candida, do not use fruit, carrot, or beet juices. (See section on Candida) Most people drink ½ - 1 gallon of fresh juice each of the seven days, depending on the weather.

Take seven capsules of the Herbal Mucus Eliminator in the morning and seven capsules before bed. These can be taken with either juice or water. Take six capsules of Super Boost Greens in the middle of the day with either juice or water.

You can drink as much Potassium Broth as you desire.

Optional) At least two times per day, drink one cup of Health Man's Detoxification Tea. Instructions for preparation are on the label. You can drink the tea as often as you like throughout the seven days. (Purchased separately) On each of the seven days, you will either take a series of enemas or receive a colonic. A colonic should be administered by a colonic therapist (see the Yellow Pages). Try to not exert too much energy throughout the day. Rest as much as possible and do not try any rigorous exercise such as running, weight lifting, aerobics, or cycling. These exercises will cause too much fatigue. Instead, try walking, yoga, breathing, or meditation. Avoid stressful situations and stay focused on your goals. Write down on paper what those goals are and place it on your bathroom mirror so you will read it daily. Keep in mind that the Herbal Mucus Eliminator usually takes 4-5 days to prepare and soften the hardened mucus plaque so that it will dislodge from the walls of your colon during your colonic. You will notice this material as it is expelled because it will be black in color and have a ghastly odor. You should eliminate 5-15 pounds or more of this putrid material during the 5th, 6th, and 7th days of the program. It is truly amazing!

Day-by-Day Instructions for the Ultimate Cleanse DAY ONE – When you first get up in the morning, take seven capsules of the Herbal Mucus Eliminator with either juice or water. You can drink as much juice as desired throughout the day and since the juice is your food for the next seven days, you should drink a lot so that you will not let yourself become hungry and discouraged. Drink at least ½ gallon per day. Most people consume more than one gallon per day. In the middle of the day, take six capsules of the Super Boost Greens with either juice or water. Drink at least one cup or more of Health Man's Detoxification Tea. (Optional, purchase separately) For those who will be using enemas, use warm water and administer several times. Try to hold the water in as long as you can before you expel. If you experience any cramping, don't be alarmed; simply take two fingers and massage the area gently. This will assist the bowel to dislodge mucous plaque and be eliminated. It is a new experience for some of you but see it through because it gets better. Your first day, you will eliminate the most recent waste from your bowels. On the 4th, 5th, 6th, and 7th days, you will be eliminating the hardened mucus layers. You may experience headaches or nausea if you are highly toxic but they will pass so do not become discouraged. Your digestive organs are releasing toxins, poisons into your bloodstream. It will take a day or two for your body to eliminate this pollution from your body. Just remember, you are cleaning house. Before going to bed, take seven capsules of the Herbal Mucus Eliminator with either juice or water.

DAY TWO – You will repeat day one. You may feel a little lighter, but don't overextend yourself; take it easy and relax as much as possible.
AY THREE – You will repeat day one. Your cells have started to rejuvenate, you’re starting to see changes in your cells, hips, and chin. Continue to relax as much as possible. Go to the beach, take a walk, or do yoga.

AY FOUR – You will repeat day one. You may experience emotions that you may have never felt before. Your mental acuity will increase. You may begin to feel very spiritual, happy, and young. These thoughts will usually distract you from thinking about food. You should now realize you do not need to eat three meals a day because your body accumulates too much waste and too many residues which are very taxing on the digestive organs. Enemas should be increased to 15 times a day.

AY FIVE – You will repeat day one. Try to stay quiet throughout the day and avoid stress. Today, you should eliminate plenty of hardened mucous plaque during your enemas.

AY SIX – You will repeat day one. You should do one enema in the morning and one in the evening. Remember, days 5, 6, and 7 are the best days because the herbs have activated the mucous plaque and it will begin to detach on the walls of your colon. It is in your best interest to finish all seven days. The overall goal is to eliminate the old mucous layers from your digestive tract. By now, you have probably gone through many changes both emotionally and physically. You are doing a great job, with just one more day to go.

AY SEVEN – You will repeat day one. You made it. Congratulations, you are on your way to perfect health. Finish the day and tomorrow, you can eat.

AY EIGHT – You have completed your 7-Day Miracle Cleanse Program. Now you can begin eating. Remember not to eat too much because you are restarting your digestive system and you do not want to overload it. You do not want to just eat anything on your first day off your cleanse. Eat only soft fruits like pears, bananas, peaches, avocados, or strawberries. It is important that you do not cleanse longer than seven days at a time. After seven days, the natural vitamin C will need to be replenished so it is recommended to break your cleanse for at least three days. Then, if you wish, you can begin another cleanse.

NOTE: It is recommended that you consult a naturopathic doctor, colon therapist, or someone knowledgeable regarding intestinal cleansing. If you wish to proceed, remember to be intelligent and follow all instructions. If you have had any part of your colon removed, consult your doctor before attempting this program. Be healthy! This program is about using your common sense. To cleanse is to purify!

After Your Cleanse

If this is your first cleanse, you should complete six cleanses the first year, one every seven weeks. After the first year, complete one cleanse every six months to maintain a clean digestive tract. You will be ready for your next cleanse in seven weeks. If you chose the Super Cleanse this time, perhaps you will feel more confident and want to try the Ultimate Cleanse in seven weeks.

On day nine, you can resume eating a healthy diet. Do not go back to your previous unhealthy eating habits. If your diet is not healthy, you should improve it or you will return much more quickly to a toxic state.

If your diet is not very good and if you have the will to improve it, here are some tips:

- If you were eating three or more meals per day, try reducing to two meals per day, and drink fresh juices as a replacement, especially carrot juice or carrot juice combinations. Your body will love you for this! You will find that the more vegetable juice you drink, the less food you will eat. Juice is loaded with a vast amount of nutrients.
- Try to become aware of what you put into your body. After the cleanse, you should be able to assimilate more nutrients from the foods you eat and you may find that you may be less hungry throughout the day. Therefore, don’t eat merely because it is “time” to eat, but eat only when you are truly hungry.
- Nicotine, caffeine, alcohol, and milk products are very acid forming and will cause you to desire to eat more due to

Exhibit D
180
e acid created from these products. Try to stay away from them completely.

Your daily program should include six capsules of Super Boost Greens taken with juice or water as your perfect protein source.

Eliminate all flesh food products (meats). If you need protein, take Super Boost Greens capsules daily. Eliminate white bread products and replace with rye, spelt, or sprouted breads.

Read labels! A good rule is, if you cannot pronounce it and if you don’t know what the ingredient is, don’t eat it. In most cases, it is a chemical that is man-made. Try to stay away from man-made foods because they are mucus forming, unlike live enzymes and are mostly indigestible. Eat natural, organically grown foods because they will produce energy and life.

tart your day with this routine:

Squeeze the juice of one lemon into 8 ounces of hot distilled water. This will flush out your liver.

Drink juices throughout the day:

- 8 ounces of grapefruit and orange juice
- 1–4 quarts fresh carrot juice
- 1 ounce or more of wheatgrass juice
- 16 ounce carrot juice combinations including 65% carrot juice with spinach, beet, ginger, tomato, celery, parsley, aril
- 8 ounces carrot, apple, parsley

Frequently Asked Questions †

Q: After completing the 10 days of Parasite 2, how many days can I wait before starting the 7-day program?
A: You can wait up to 3 days, but it is recommended to start your 7-day program right after the Parasite 2.

Q: Which program – 1 or 2 – will give better elimination results?
A: Program 2 will give better elimination results because the enemas aid in dislodging the softened mucous plaque.

Q: Will I be running to the bathroom during the day?
A: During program 1, you should eliminate 2 – 4 times per day and still be in control. During program 2, you will typically eliminate during the enemas in the evening.

Q: Can I drink acid-forming beverages (coffee, sodas, alcohol, milk, etc.) during the 7-day cleanse?
A: The purpose of the Super Boost Greens is to increase alkalinity in the body. This is why we take them during the 10 days of Parasite 2. Acid and alkaline don’t mix.

Q: Will I lose weight?
A: The average person will lose 8 – 15 pounds.

Q: Do I have to do the enemas?
A: There are two different programs from which to choose. Program 1 does not include enemas. Program 2 recommends enemas. You do not have to but it is recommended for optimal results.

Q: How will I know if I am eliminating mucous plaque?
A: Mucous plaque is rubbery in texture and will have a foul smell. Usually, you won’t start seeing it until your 4th, 5th, 6th and 7th days of your cleanse.
Should I do more than one 7-day cleanse per year?
If you have never done any colon cleansing, it is recommended to do six of the 7-day programs, one every seven weeks, for the first year and then every year thereafter for maintenance purposes.

Is this program safe for children?
It is safe for children age 10 and up but it is recommended to cut the dosage in half. Children ages 10 to 14 should only do four days. Children age 15 and older can do the full 7-day program.

Are there any side effects in taking the Parasine 2?
When taking the Parasine 2, you may experience headache, cramping, nausea, and/or diarrhea; however these are not side effects of the Parasine itself, but symptoms that you are very toxic. They will subside in the first day. It is the product that is making you feel sick, it is your body releasing toxins.

Can nursing mothers do this program?
It is not recommended until you stop nursing.

Can I do the enemas while pregnant?
Yes, you can and it will relieve a lot of pressure off the baby as well as your lower back.

How often can I do an enema?
Once every couple of weeks.

Do I have to become a vegetarian once I finish the 7-day cleanse?
No, you do not but it is better to stay away from acid-forming foods such as meats, coffee, sodas, milk, alcohol, etc. for better health.

Can I exercise during the 7-day program?
Exercise is great, but not vigorous exercise because you don’t want to tire or overdo it. You are giving your digestive organs a vacation. Take it easy during the 7-day program.

If Parasine 2 should make me feel unwell, what should I do?
Reduce the dosage to 5 per day until the bottle is empty.

Can elderly people do this program?
Yes, it is highly recommended for elderly people to do this program.

Should I worry, if doing the enemas, about rectal tearing or intestinal thinning?
We have never had anyone have these problems doing enemas.

7-Day Miracle Cleanse

Liver Detoxification Cleansing Program †

(NOT INCLUDED-MUST BE PURCHASED SEPARATELY)

The average American diet contains many toxins that strain the immune system. To counteract the effects of these toxins, it is important to start with detoxifying the colon but then the clogged liver must be treated. After completing the 7-Day Miracle Cleanse Program, it is important to continue your detoxification by cleansing your liver. The liver can contain intrahepatic stones that block bile flow and adversely affect digestion. Toxins in food, parasites, drugs, and
ntal toxins also put a strain on the liver.

The liver is the largest gland in the body. It performs many functions, working with nearly every fundamental system and process, including homeostasis, synthesis, storage, excretion, filter, and defense. First, it regulates blood sugar levels, lipids, and amino acids. Because it is one of the hardest working regions in the body, it produces heat, which is unspored to warm less active regions. The liver also forms plasma proteins, heparin, bile, cholesterol, and vitamin A from carotene. It extracts many harmful materials from the blood and excretes them in the bile or from the kidneys. For example, drugs are taken up by the liver, where they are broken down and excreted. Finally, the liver stores vitamins A, B-12, and D. The gall bladder is cated inside the liver and is the storage place for bile produced by liver cells.

The restoration of the liver is of vital importance in fighting cancer, as cancer is a symptom of a malfunctioning liver. In the Immune Perspectives article “The Liver, Laboratory of Living,” Dr. Leo Roy states, “No disease, especially degenerative diseases including cancer and AIDS, could survive longer than a few weeks in the healthy liver.” This is because the liver is responsible for producing antihistamines to neutralize substances that encourage cancer growth. In addition, the liver produces chemicals that fight viruses and bacteria.

**Day Liver and Gall Bladder Flush †**

Each morning upon rising drink 8 ounces of hot distilled water mixed with the juice of one lemon. This is not only stimulating, but also flushes out the digestive organs of leftover residues. Within 15-30 minutes, mix the following in a blender: 8 ounces fresh orange, lemon, lime, grapefruit, or tangerine juice or a combination 8 ounces of distilled water ¼ Tablespoons of organic virgin cold pressed olive oil 2-4 peeled cloves of garlic 1 pinch of cayenne pepper 1 piece of peeled fresh ginger root Blend well and drink. †

Drink plenty of fresh fruit and vegetable juices throughout the day diluted 25% with distilled water.

Drink fresh wheatgrass juice. If you have never had wheatgrass juice before, start with one ounce and increase.

Drink at least four cups daily of Health Man’s Detoxification Tea. Try adding lemon to the tea.

Take 10-20 capsules per day of LVR-C3 with distilled water or fresh juice.

Vegetable broth is a great addition to your cleansing program because it helps flush out unwanted salts and acids while providing a concentrated amount of vitamins and minerals.

On Day 4, you will break your liver cleanse. Eat soft fruits such as ripe bananas, avocados, pears, and peaches. Drink plenty of fresh juices. In the evening, eat a fresh salad and soup.

After you have cleansed your liver, you need to follow up by taking care of it:

Negative emotions like anger can put a terrible strain on your liver so remember to love yourself and to have fun. Avoid processed foods, caffeine, alcohol, refined sugar, artificial sweeteners, fatty foods, processed flour, smoked foods, preserved foods, and animal fats.

Try not to overeat, as it strains your liver, and choose lighter foods. Also, eating smaller meals more often is better than one or two large meals. Avoid eating before bed.

Enjoy your newfound food choices, such as whole grain foods, raw seeds, nuts, and fruits, raw or lightly steamed vegetables. Continue to drink fresh juices, especially beet, wheatgrass, and alfalfa. Exercise is important to maintain a healthy liver because deep breaths flush the liver of toxins. Eat parsley or kale to stimulate bile flow.

WHY CLEANSE?

Detoxification †

We live in a toxic environment in which we are exposed to harmful chemical additives in our food and hazardous substances in air, water, and food supplies. In addition, our bodies produce toxins as a product of metabolism. These toxins accumulate in our bodies and cause damage we may not immediately detect; however, toxic build-up will eventually severely damage our immune systems. Thus, supreme cleanliness is the first step toward achieving a healthy body. Any accumulation or retention of morbid matter or waste of any kind will retard the recovery process. The channels of elimination are the lungs, sweat glands in the skin, the kidneys, and the bowels.

Is paramount to your health that all eliminative channels operate efficiently. The lungs expel carbon dioxide, a waste product from the metabolism of food in the body's cells. Sweat glands secrete perspiration, composed of water, sodium chloride, and the toxins urea, ammonia, and uric acid. Urea, ammonia, and uric acid are waste products of protein metabolism and would be damaging to the body if retained. Every day, your kidneys process approximately 200 quarts of blood to sift out about two quarts of waste products and extra water. The wastes in your blood come from the normal breakdown of active tissues and from the food you eat. If your kidneys do not remove these wastes efficiently, the wastes build up in the blood and damage your body. The liver extracts many harmful materials from the blood, including drugs, heavy metals, and poisons, and excretes them from the kidneys. In other words, the kidneys excrete end products of food as well as waste from the liver. The bowels are responsible for processing and eliminating food waste in the form of dead cells, cellulose fibers, and other indigestible substances, which are the results of our physical and mental activities. The internal organs can hold a lot of toxins, and it is impossible to remove them without cleansing. If these toxic wastes are not eliminated, they will cause toxemia. The 7-Day Miracle Cleanse Program is a professional cleansing system that gives the body the opportunity to “clean house” and to eliminate toxins and other foreign materials.

Because everyone lives in a toxic environment, proper nutrition and the regular use of the 7-Day Miracle Cleanse program are necessary for survival. In most people, the entire digestive tract is polluted with poisonous, toxic substances. Parasites, including worms thrive on these toxic materials, which are also collected in the mucous plaque throughout the digestive tract. Parasites can enter the bloodstream because the blood is fed by the bowels. The action of such insidious ingredients can only bring decay, disease, and poor health. Take the first step toward a healthy body and complete the 7-Day Miracle Cleanse!

D: CONSTIPATION †

It is estimated that over 97% of the population is constipated. According to Dr. Norman Walker, the number one affliction underlying almost every ailment is constipation. In other words, it is “the primary cause of nearly every disturbance of the human system.” This is because the blood vessels lining the colon collect nutrients missed by the small intestine. In his book Pure and Simple Natural Weight Control, Dr. Walker explains, “If the feces in the colon are putrefied and fermented, any nutritional elements present in it would pass into the bloodstream as polluted products. What would otherwise be nutritional becomes, in fact, the generation of toxemia...a condition in which the blood contains poisonous products which are produced by the growth of pathogenic or disease-producing bacteria.” Imples can be an indication of the presence of toxemia. The typical American diet causes the colon to be filled with oxins that strain the eliminative channels and ultimately, the immune system.

The human body is made up of live cells but when we congest our body with cooked foods made up of dead cells, the digestive process slows to a crawl. Man-made chemicals, devitalized foods, cooked foods, and foods that are not...
Exhibit D

185

The walls of the colon are equipped with sensitive nerves and muscles whose function is to create a wave-like action, called peristaltic waves. These waves move the fecal waste products through the colon. When the bowels slow down to a crawl, or become impacted, it is then that wastes have the opportunity to ferment and putrefy in the colon, causing toxemia. The symptoms of constipation include infrequent bowel movements, passage of hard stools, and difficulty in passing stools.

The length of time that fecal matter sits in the colon is a problem that Americans need to worry about. In other countries, where processed foods are not as accessible, people have one bowel movement per meal eaten. Ideally, fecal waste should stay in our system 6 to 8 hours, but no longer than 24 hours. In America, where processed foods are diet staples, the transit time averages from 72 to 96 hours. This gives the fecal matter time enough to become putrid, ferment, and build up toxins that can affect every part of the body. In summary, if you do not have bowel elimination after every meal, you are constipated.

As a result of a diet high in fat and protein, the feces of North Americans have only about half the bulk of Far Eastern or African populations, and are eliminated from the intestinal tract much more slowly. Studies have shown that indigenous African peoples consume 75-100 grams of fiber daily and have a fecal transit time of 4-6 hours, whereas the average American consumes only 12-17 grams of fiber daily and has a fecal transit time of 60-90 hours.

Correlating to these figures, the rate of colon cancer is far higher among North Americans, suggesting that the retention of a fat-laden, compact fecal mass in the lower bowel contributes to cancer development.

Constipation is the retention of feces caused by hardened mucus plaque residues that line the walls of the colon and act as plasters. In order to decrease the amount of toxins absorbed into the bloodstream from the colon, mucus is created to act as a barrier from the waste of certain foods, especially meat, dairy, white flour, and other processed foods. The mucus is actually a natural defense mechanism of the body and could be efficiently eliminated through the colon if it did not occur frequently. But most people eat mucus-producing foods every day, creating a toxic build up of layers and pockets of mucus plaque and decayed fecal matter, which can stay in the colon for many years. One function of the colon is to absorb water, so some of the epithelial cells of the colon secrete a lubricant for the drying mass of undigested food residue. With the presence of mucus plaque and encrusted fecal matter, it is not possible for the lining of the colon to function efficiently, and the colon cannot produce its necessary lubrication. This further intensifies the state of constipation and toxemia.

First and foremost, the mucous plaque that has been developing over your lifetime must be eliminated. It is important to maintain the digestive tract by thoroughly cleansing using the 7-Day Miracle Cleanse. Ideally, the program should be completed every six months to prevent mucus plaque from developing on the walls of your colon again!

3. COLON CLEANSING†

'Optional, but recommended for best results"

Dr. V.E. Irons, a bowel specialist, said, "A toxic colon has everything to do with premature aging. Over 100,000 people die from colon cancer every year and millions suffer from terrible health problems caused directly by a diseased colon." According to the Merck Manual, a well-respected medical publication, diverticulosis is a major colon disease that has increased over the last 40 years from 10% of adults in 1950 to the current finding that every adult person has many diverticulae. The U.S. Public Health Service reports that 90% of the population has a clogged colon. According to the great N.W. Walker, D.Sc., Ph.D., who was a leading authority of health and wellness, "The best diet is no better than the worst diet if you don't cleanse the colon properly." Cleansing the colon is the single most crucial hygienic need of the human body.

Why are we so reluctant to talk about the most vital part of the body? Our society has conditioned us into avoiding the most critical part of our body while encouraging the cleanliness of other parts. Everyone cleans the other orifices of the body, but it is pure ignorance not to cleanse the filthiest part. Your anus and colon are considered to be the sewer of
the body so you avoid them, but sooner or later, you are going to have to address this issue. Prevention is the only way to ensure that your immune system is not compromised by the build-up of mucous plaque and toxins. Maintaining a diet composed of fresh fruits and vegetables and fresh juices, along with periodic colon cleansing can hinder or prevent sickness and disease. Colon cleansing is one of the important components of the 7-Day Miracle Cleanse.

The colon is not merely the sewer of the human body; it is the center of the human body. It has many nerves connected to all vital points of the body and when stress is created in the colon by pressure, it can have a direct affect on the nerves leading to particular points of the body. Thus, it is imperative to keep the colon free from any mucus build up. Mucus is formed because of the residues of certain foods. Foods that are not composed of fresh fruits and vegetables, raw nuts and seeds will encourage the production of mucus. Each meal eaten of dead foods leaves a microscopic residue on the walls of the colon. This material averages 1/8 to 1/4 inch in thickness. Over the years, it hardens and becomes as hard as black tire rubber, stuck to the walls of the colon.

Achieving a clean colon were as simple as washing out the loose material on the inside of the colon, it would not be difficult to clear away; a colonoscopy would do the job. What is a colonoscopy? A colonoscopy is similar to an enema that cleanses the entire length of the colon and sometimes the appendix. It is also referred to as hydrotherapy, colon cleansing, or enema therapy. It is a repetitive washing of the colon using lukewarm water, filling the colon with up to a quart at a time, expelling the water after time, until the bowels are empty. Unfortunately, it is not that easy. One reason is the presence of hardened mucous plaque lining the walls of the colon. Another reason is that a colonoscopy is not efficient in cleansing the colon is the presence of diverticulae, sacs that extend through the colon. Diverticulae are caused by a sluggish, constipated bowel. They act like pockets as they become packed with fecal matter and can cause the bowel to retain up to 20 pounds of toxic, putrid waste stuck to the walls of the colon. Obviously, this creates a filthy environment and an ideal breeding ground for sickness and disease. In order to ensure success in cleansing the colon, the Herbal Mucus Eliminator must be used in conjunction with colonics during the 7-Day Miracle Cleanse. It is used to activate and loosen the mucous plaque over the seven-day period, the daily colonics or enemas assist to sludge this film from the walls of the colon and remove it from your body.

. ACHIEVING PERFECT WEIGHT ±

Achieving your proper body weight is easy and yet, Americans have a big weight problem. The U.S. surgeon general reports that 61 percent of adults and 14 percent of teenagers are overweight. The major nutritional problem among North Americans is obesity. In the last 20 years, the rate of obesity has doubled among adults and tripled among children. The January 2004 issue of Archives of Pediatrics & Adolescent Medicine reports that teenagers in the US are higher rates of obesity than those in 14 other industrialized countries. In fact, 31% of teenagers are overweight and another 15% are obese. Unfortunately, these weight problems will carry on into adulthood. According to the CDC, 0 percent of middle-aged women and 15 percent of middle-aged men are obese. According to the American Society or Bariatric Surgery, 16 million Americans are morbidly obese. A person who is more than 120% of his or her appropriate weight is considered obese. More than 300,000 people die each year from diseases caused by excess weight. Obesity is correlated with a significant increase in coronary artery disease, diabetes, and other disorders. In the year 2000, obesity cost the country $117 billion in health care expenses.

Why are over 200 million people overweight? The answer is conditioning. We have been tricked, misled, and lied to by advertisers, in the name of greed. Take a look in the mirror and ask yourself now it makes you feel to have been deceived all these years by schools, doctors, and food corporations. Almost all corporations advertising on radio, television, billboards, and other media sell man-made products because these companies are only interested in profits! In the year 2001, McDonald’s spent $1.1 billion on advertising. On the other hand, vegetables and fruits are rarely promoted because there is not enough profit involved. The man-made “foods” that are relentlessly advertised must not eat because they are composed of processed foods, dead foods, and added chemicals. They are indigestible and contain little to no nutritional value. For example, cereal grains have as much nutritional value as table sugar when they are milled into flour. Your body actually enacts a defense system against these foods, by producing
ucus to protect itself. The mucus hardens against the walls of the colon and gradually becomes thick and hard, interfering with the functioning of the colon and ultimately, every body system.

Illustrate the point that Americans have been conditioned to consume unhealthy diets by relentless advertising campaigns, consider a study conducted by obesity researchers of 15 industrialized nations, including the United States. Teenagers in the United States are ranked number one in obesity because they are more likely than teenagers in other countries to eat fast food, snacks, and sugary sodas. On the other hand, Lithuania has the one of the lowest rates of obesity because Lithuania has few fast food restaurants. As another example of conditioning, consider the fact that the average American consumes about twenty times more salt than our bodies need. Excess salt has been linked to hypertension. Another health hazard is animal fat, such as that present in beef and pork. It has been known for some time that diets high in animal fats somehow interfere with the regulation of blood cholesterol, implicated intherosclerosis and heart attacks. Remember that the foods you eat are your only defense against the effects of stress, radiation, pollution, and toxic chemicals. Eating processed foods that are nutritionally empty leave the body vulnerable to poor health and low energy.

Lot only have you been misled by corporations, you have also been misled by governmental entities such as the USDA. The USDA has notoriously downplayed the health risks of red meat and dairy products in order to protect the airy and cattle industries. For example, scientists have known about the dangers of red meat and dairy products since the 1960’s. Milk is a high-fat drink that is designed to turn a 45-pound calf into a 1000 pound cow in just 18 months. The fact is that humans are the only species to consume milk after infancy and the only species to take another species’ milk. Milk is baby food for cows and is unnatural for people. This is why it often causes allergic reactions, digestive disturbances, and it is also linked to heart disease. Eggs contain an extremely dense concentration of cholesterol. They are intended to support a baby chick for 21 days while it is developing. When people eat eggs, the cholesterol enters the bloodstream and increases the risk of heart disease. The human body actually produces all the cholesterol it needs and can only dispose of 100 mg of extra cholesterol. Any more than 100 mg of extra cholesterol taken per day begins clogging the arteries. Finally, the USDA Food Guide Pyramid has now been blamed for the epidemic of obesity because it leads people to believe that all fats are dangerous while carbohydrates are healthy choices. The reality is that excessive carbohydrates lead to obesity and the wrong carbohydrates can be deadly, while fats found in fish, nuts, and vegetables help protect against disease. Now that you now the truth, make this part of your thoughts at least twice a day. This is how you are going to recondition yourself to change the old eating patterns.

How simple is it to achieve optimal body weight? First, 80% of your diet should be limited to fresh fruits and vegetables, especially fresh vegetable juices. Fresh juices should make up at least 50% of your daily food. Eliminate all sugar, white flour, most dairy products – especially pasteurized milk, nicotine, caffeine, soft drinks, alcoholic beverages, and salt. These products are dead and have no nutritional value. These are the “foods” that have created the body you currently have. To locate foods with minimal amounts of undesirable ingredients, start shopping at the local natural foods markets and buy organic products whenever possible. Start reading the labels for denatured ingredients. Do not buy labels that claim to be “fat free” because these words do not mean anything. This is more deceptive advertising. Don’t drink juices that are pasteurized or cooked because these juices are dead. For example, cooking or processing vitamins destroys them. Find recipes for fresh foods. Remember to think FRESH. This is important so that you don’t revert to your old body and old eating patterns. Finally, prescription drugs are poisonous to the human system. Most people are afraid to stop taking medication. If you regularly complete the 7-Day Miracle Cleanse Program and change your diet, you are going to discover that you do not need any drugs. Let it happen and you’ll see for yourself that all you need is the right guidance. Begin your metamorphosis today!

According to the concept known as adaptive thermogenesis, thin people can consume large amounts of food without gaining weight because the appetite center speeds up metabolic activity to compensate for the increased consumption. Thermogenesis allows the body to eliminate excess calories by generating heat. Defective thermogenesis causes the transformation of a larger fraction of a given caloric intake into body fat resulting in weight gain and obesity. Specialized types of fat cells, called brown fat cells, send signals to control the thermogenesis response. The primary role of brown adipose tissue is thermogenesis and overall energy control. Some diets actually suppress thermogenesis, which is the opposite of what you need to lose weight; to lose weight, you want to speed up metabolism, not slow it down. This is why 95% of diets fail. The 7-Day Miracle Cleanse is a diet that supports thermogenesis and you will lose weight.
you are overweight, your glandular system is all clogged up. In order to lose weight, your body needs an efficient balanced glandular system to support thermogenesis. The most critical gland in weight control is the thyroid gland, cause it is usually the cause of the imbalance. The thyroid is a butterfly-shaped gland located in the neck, surrounding the windpipe. It produces the hormone thyroxine, which serves to regulate the rate at which metabolic actions occur in the body. Thyroxine is essential to induce thermogenesis. Thyroid hormones are released into the bloodstream and are transported throughout the body where they control metabolism. Metabolism is the conversion of energy and calories (food) into energy. Every cell in the body depends upon thyroid hormones for regulation of their metabolism. As thyroxine levels increase, so does the relative speed at which reactions occur and so does the caloric expenditure. As thyroxine levels decrease, so does the speed of metabolism. Only proper nourishment and internal cleansing can balance this gland and until the thyroid is balanced, it is not possible to lose weight effectively. This is why most weight loss programs are insufficient.

People have been trained and programmed to eat the wrong foods, so realize this and know that you must make the commitment to changing the way you eat and regularly completing the 7-Day Miracle Cleanse Program. You should change your eating habits gradually so you and your body will have an easier time adjusting. Over a period of one to three months, reduce your meat intake by one serving every week until you have eliminated all meat products. For example, if you eat meat four times a week, next week you will reduce your intake to three times, and so on, until you have eliminated all meats from your diet. Also, eliminate all dairy products, sugar products, soft drinks, milk, nicotine, caffeine, salt, and alcoholic beverages. If you feel you can be more aggressive than this, it is definitely in your best interest to do so. Be aware of what you put into your body and do not be afraid to speak up for eating the right foods. If you are severely overweight, you can expect to lose up to 40 pounds during the cleansing program. The average person will lose eight to 15 pounds, typically in the chin, abdomen, thighs, and hip areas. As these are the places your body stores fat first. Thousands of people have proven that this is one of the most balanced weight loss programs and really works. Prepare for the 7-Day Miracle Cleanse and complete it. You life will change forever!

Program 2: The Ultimate Cleanse

Items needed to begin the Ultimate Cleanse:

1. Enema bag (optional)
2. A juicer or a source of fresh juice for each day. The fresh juices will supply you with the nutrients your body will need daily.
3. 7-Day Miracle Cleanse Herbal Mucus Eliminator will aid in the loosening of the hardened mucus layers in your bron.
4. 7-Day Miracle Cleanse Super Boost Greens is your vegetable protein to help maintain your strength.
5. (Optional) Health Man's Detoxification Tea (purchase separately)
6. Potassium Broth

Potassium Broth Recipe

- 1 potato
- 1 carrot
- 1 onion
- 1/4 head of cabbage

Cut all vegetables into large pieces and steam them in six cups of distilled water for 5-8 minutes. Season them with vegetable salt, Bragg's liquid aminos, or Herbs de Provence. You can purchase these seasonings at your local health food or natural food store. Remove the vegetables from the broth and do not eat them.

In each of the seven days:
In the morning, prepare or purchase 1/2-1 gallon of fresh juice such as carrot, apple, watermelon, cantaloupe, or grape. If you have Candida, do not use fruit, carrot, or beet juices. (See section on Candida) Most people drink 1/2-1 gallon of fresh juice each of the seven days, depending on the weather.

Take seven capsules of the Herbal Mucus Eliminator in the morning and seven capsules in the evening. These can be taken with either juice or water.

Take six capsules of Super Boost Greens in the middle of the day with either juice or water.

Optional! At least two times per day, drink one cup of Health Man's Detoxification Tea. Instructions for preparation are on the label. You can drink the tea as often as you like throughout the seven days. (Purchase separately)

In each of the seven days, you should take a series of enemas. It is recommended that you do this as late in the day as possible because it can be a little tiring. Try not to exert too much energy throughout the day. Rest as much as possible and do not try any vigorous exercise such as running, weight lifting, aerobics, or cycling. These exercises will...
use too much fatigue. Instead, try walking, yoga, breathing, or meditation. Avoid stressful situations and stay
used on your goals. Write down on paper what those goals are and place it on your bathroom mirror so you will
read it daily. You will notice the material that you expel will be black in color and have a ghastly odor. You could
minimize as much as 5-25 pounds or more of this putrid material during the 5th, 6th, and 7th days of the program. It is
really amazing!

Day-by-Day Instructions

DAY ONE - In the morning and evening, take seven capsules of the Mucus Eliminator with either juice or water. You
drink as much juice as desired throughout the day along with the Potassium Broth and since this is your food for
the next seven days, you should drink plenty so that you do not let yourself become hungry and discouraged. Drink at
least 1/2 gallon per day. Take 6 capsules of Super Boost Greens with either juice or water once in the morning and
maining. Drink at least one cup or more of Health Man’s detoxification Tea. (Optional, purchase separately) At the
d of the day, you will do your first colonic. For those who will be using enemas, use warm water and administer
veral times. Try to hold the water in as long as you can before you expel. If possible, it is best to complete your
ionic at the end of the day. If you experience any cramping, don’t be alarmed; simply take two fingers and massage
area gently. This will assist the bowel to dislodge mucus plaque. It is a new experience for some of you but see it
ough because it gets better. Your first day, you will eliminate the most recent waste from your bowels. On the 4th,
h, 6th and 7th days, you will be eliminating the hardened mucus layers. You may experience headaches or nausea if
are highly toxic but they will pass so do not become discouraged. Your digestive organs are releasing toxins,
ions into your bloodstream. It will take a day or two for your body to eliminate this pollution from your body. Just
member, you are cleaning house.

DAY TWO - You will repeat day one. You may feel a little lighter, but don’t over-extend yourself; take it easy and relax
much as possible.

DAY THREE - You will repeat day one. Your cells have started to rejuvenate; you’re starting to see changes in your
ce, hips, and chin. Continue to relax as much as possible. Go to the beach, take a walk, or do yoga.

DAY FOUR - You will repeat day one. You may experience emotions that you may have never felt before. Your
ental clarity will increase. You may begin to feel very spiritual, happy, and young. These thoughts will usually distract
from thinking about food. You can do an enema if you feel you have more mucus plaque to eliminate. Enemas
ould be increased from 5-10 a day.

DAY FIVE - You will repeat day one. Try to stay quiet throughout the day and avoid stress. Today, you should
minate plenty of hardened mucus plaque during your colonic or enemas.

DAY SIX - You will repeat day one. You should do one colonic or enema in the morning and one in the evening.
ember, days 5, 6, and 7 are the best days because the herbs have activated the mucus plaque and it will begin
detch from the walls of your colon. It is in your best interest to finish all seven days. The overall goal is to eliminate
old mucus layers from your digestive tract. By now, you have probably gone through many changes both
otionally and physically, You are doing a great job, with just one more day to go.

DAY SEVEN - You will repeat day one. You made it. Congratulations! You are on your way to perfect health. Finish
t the day and tomorrow, you can eat.

DAY EIGHT - You have completed your 7-Day Miracle Cleanse Program! Now you can begin to eat again. You should
realize you do not need to eat three meals a day because your body accumulates too much waste and too many
ides which are very taxing on the digestive system. Remember not to eat too much because you are restarting
 digestive system and you do not want to overload it. Eat only soft fruits like pears, bananas, peaches, avocados,
’s important that you do not cleanse longer than seven days at a time. After seven days, the natural vitamin C will
edd to be replenished so it is recommended to break your cleanse for at least three days. Then, if you wish, you can
in another cleanse.
his is your first cleanse, you should complete six cleanses the first year, one every seven weeks. After the first year, complete one every six months to maintain a clean digestive tract.

**By Nine** - You can resume eating a healthy diet. Do not go back to your previous unhealthy eating habits. If your diet is not healthy, you should improve it or you will return much more quickly to a toxic state. You will be ready for your next cleanse in seven weeks.

Your diet is not very good and if you have the will to do it, here are some tips:

1. If you were eating three or more meals per day, try reducing to two meals per day, and drink fresh juices as a replacement, especially carrot juice or carrot juice combinations. Your body will love you for this! You will find that one more vegetable juice you drink, the less food you will eat. Juice is loaded with a vast amount of nutrients.
2. Try to become aware of what you put into your body. After the cleanse, you should be able to assimilate more nutrients from the foods you eat and you may find that you may be less hungry throughout the day. Therefore, don't eat merely because it is "time" to eat, but eat only when you are truly hungry.
3. Nicotine, caffeine, alcohol, and milk products are very acid forming and will cause you to desire to eat more due to the acid created from the products. Try to stay away from them completely.
4. Your daily program should include six capsules of Super Boost Greens taken with juice or water as your protein, he Super Boost Greens capsules daily.
5. Eliminate white bread products and replace with rye, spelt, or sprouted breads.
6. Read labels! A rule is, if you cannot pronounce it and if you don't know what the ingredients is, don't eat it. In most cases, it is a chemical that is man-made. Try to stay away from man-made foods because they are mucus forming, ck live enzymes and are mostly indigestible. Eat natural, organically grown foods because they will produce energy ad life.
7. Start your day with this routine:
   - Squeeze the juice of one lemon into 8 ounces of hot distilled water. This will flush out your liver.
   - Drink juices throughout and orange juice
   - 4 quarts fresh carrot juice
   - 1 ounce or more of wheatgrass juice
   - 6 ounce carrot juice combinations including 65% carrot juice with spinach, beet, ginger, tomato, celery, parsley, garlic
   - 2 ounces carrot, apple, parsley

This program is about using your common sense. To cleanse is to purify!
7-Day Miracle Cleanse

- DMC Liver Detoxification Cleansing Program

Day 1 Liver & Gall Bladder Flush

- Choose from 8 ounces of fresh orange, lemon, lime, grapefruit or tangerine or combine any with
- 8 ounces of distilled water
- 2–4 tablespoons of Organic Virgin Cold Pressed Olive Oil
- 2–4 peeled cloves of Garlic
- 1 pinch of Cayenne Pepper
- 3 piece of peeled fresh Ginger Root
- Drink to your health!

Drink plenty of fresh fruit and vegetable juices throughout the day!
- Dilute with distilled water 25%
- Drink fresh Wheatgrass juice if available Note: If you have never had Wheatgrass juice before start with 1 oz. and work your way up to more.
- Drink Detoxification Tea at least 4 cups or more per day. Add lemon if desired.
- Take LVR-C3, 10–20 capsules or more each day with plenty of fresh juice or distilled water.

Vegetable Broth Recipe
This is a great follow up after completing the 7 day program! It will help flush out unwanted salts and acids while giving you a concentrated amount of vitamins and minerals.
- In a large pot of distilled water, add 1 or 2 chopped potatoes, 1 or 2 chopped carrots, 1/4 - 1/2 head of chopped cabbage 1/2 - 1 chopped onion or leek.
- Let steam 7 – 10 minutes, put aside veggies, add Jensen Quick sip or Bragg's liquid aminos and vegetable salt or sea salt just enough for flavor, do not use table salt or white or black pepper. Use organic veggies when possible. Make enough for at least one day, refrigerate left over broth. DO NOT EAT VEGGIES!

Day 4
Today you will break your cleanse. Begin to eat soft fruits such as ripe bananas, avocados, pears, peaches, etc.
- Drink plenty of fresh juices. In the evening for your dinner, eat a fresh salad and soup.

Note: Remember to be loving to yourself and have fun. Take it easy when returning to eating food try not to over eat, choose lighter foods and chew your food well. Eating smaller meals more often is better than 1 or 2 large meals. Enjoy your newfound values on food choices and amounts.

You have completed your 7-Day Miracle Cleanse Program! Now you can begin to eat again. You should now realize you do not need to eat three meals a day because your body accumulates too much waste and too many residues which are very taxing on the digestive system. Remember not to eat too much because you are restarting your digestive system and you do not want to overload it. Eat only soft fruits like pears, bananas, peaches, avocados. It is important that you do not cleanse longer than seven days at a time. After seven days, the natural vitamin C will need to be replenished so it is recommended to break your cleanse for at least three days. Then, if you wish, you can begin another cleanse.

If this is your first cleanse, you should complete six cleanses the first year, one every seven weeks. After the first year, complete one every six months to maintain a clean digestive tract.

DAY NINE
You can resume eating a healthy diet. Do not go back to your previous unhealthy eating habits. If your diet is not healthy, you should improve it or you will return much more quickly to a toxic state. You will be ready for your next cleanse in seven weeks.
The Ultimate Cleanse

HERE IS THE RECOMMENDED ULTIMATE CLEANSE

1. Complete 1 bottle of Parasite 2 before each cleanse. This will almost insure your body to be free and clear of parasites! After the first year it is recommended to complete 2 bottles a year for maintenance within 8 weeks.

2. Ideally, complete one 7-day cleanse every 2 month for the first year and once every 6 months for maintenance. This will keep you free and clear from the mucus developing on the wall of the intestines.

3. Completing this process will eliminate the toxins, sludge, parasites from your digestive tract. Also, it will help recondition and reshape your large intestines (colon) necessary for a perfect, healthy body.

AFTER YOUR CLEANSE

If this is your first cleanse, you should complete six cleanses the first year, one every two month. After the first year, complete one cleanse every six months to maintain a clean digestive tract. You will be ready for your next cleanse in two month. If you chose Program 1 this time, perhaps you will feel more confident and want to try the Ultimate Cleanse in two month.

On day nine, you can resume eating a healthy diet. Do not go back to your previous unhealthy eating habits. If your diet is not healthy, you should improve it or you will return much more quickly to a toxic state.

If your diet is not very good and if you have the will to improve it, here are some tips:

1. If you were eating three or more meals per day, try reducing to two meals per day, and drink fresh juices as a replacement, especially carrot juice or carrot juice combinations. Your body will love you for this! You will find that the more vegetable juice you drink, the less food you will eat. Juice is loaded with a vast amount of nutrients.

2. Try to become aware of what you put into your body. After the cleanse, you should be able to assimilate more

nutrients from the foods you eat and you may find that you may be less hungry throughout the day. Therefore, don’t eat merely because it is “time” to eat, but eat only when you are truly hungry.

3. Nicotine, caffeine, alcohol, and milk products are very acid forming and will cause you to desire to eat more due to the acid created from these products. Try to stay away from them completely.

4. Your daily program should include six capsules of Super Boost Greens taken with juice or water as your perfect protein source. Eliminate all flesh food products (meats). If you need protein, take Super Boost Greens capsules daily.

5. Eliminate white bread products and replace with rye, spelt, or sprouted breads.

6. Read labels! A good rule is, if you cannot pronounce it and if you don’t know what the ingredient is, don’t eat it.

7. Start your day with this routine: Squeeze the juice of one lemon into 8 ounces of hot distilled water. This will flush out your liver.

Drink juices throughout the day:
- 8 ounces of grapefruit and orange juice
- 1 quart of fresh carrot juice
- 1 ounce or more of wheatgrass juice

16 ounce carrot juice combinations including 65% carrot juice with spinach, beets, ginger, tomato, celery, parsley, garlic
- 8 ounces carrots, apple, parsley
**FREQUENTLY ASKED QUESTIONS**

Q: After completing the 10 days of Parasine 2, how many days can I wait before starting the 7-day program?

A: You can wait up to 3 days, but it is recommended to start your 7-day program right after the Parasine 2.

---

Q: How will I know if I am eliminating mucous plaque?

A: Mucous plaque is rubbery in texture and will have a foul smell. Usually, you won’t start seeing it until your 4th, 5th, 6th and 7th days of your cleanse.

---

Q: Will I be running to the bathroom during the day?

A: During program 1, you should eliminate 2 – 4 times per day and still be in control. During program 2, you will typically eliminate during the enemas or colonics in the evening.

---

Q: Can I drink acid-forming beverages (coffee, sodas, alcohol, milk, etc.) during the 7-day cleanse?

A: The purpose of the Super Boost Greens is to increase alkalinity in the body. This is why you should continue taking them after you finish the cleanse.

---

Q: Will I lose weight?

A: The average person will lose 5 - 25 pounds.

---

Q: Do I have to do the enemas or colonics?

A: There are two different programs from which to choose. Program 1 does not include enemas or colonics. Program 2 recommends enemas or colonics. You do not have to but it is recommended for optimal results.

---

**WILL I LOSE WEIGHT?**

The average person will lose 8 - 15 pounds.
FREQUENTLY ASKED QUESTIONS

Q: Should I do more than one 7-day cleanse per year?
A: If you have never done any colon cleansing, it is recommended to do six of the 7-day programs, one every seven weeks, for the first year and then one every year thereafter for maintenance purposes.

Q: Is this program safe for children?
A: It is safe for children age 10 and up but it is recommended to cut the dosage in half. Children ages 10 to 14 should only do four days. Children age 15 and older can do the full 7-day program.

Q: Are there any side effects in taking the Parasine 2?
A: When taking the Parasine 2, you may experience headache, cramping, nausea, and/or diarrhea; however these are not side effects of the Parasine itself, but symptoms that you are very toxic. They will subside in the first day. It is not the product that is making you feel sick, it is your body releasing toxins.

Q: Can nursing mothers do this program?
A: It is not recommended until you stop nursing.

Q: Can I do the cleanse while pregnant?
A: No, you should not do a cleanse while pregnant.

Q: How often can I do an enema after the program?
A: Once every couple of weeks.

Q: Do I have to become a vegetarian once I finish the 7-day cleanse?
A: No, you do not but it is better to stay away from acid-forming foods such as meats, coffee, sodas, milk, alcohol, etc. for better health.
Frequently Asked Questions

Q: Can I exercise during the 7-day program?

A: Exercise is great, but not vigorous exercise because you don't want to tire or overdo it. You are giving your digestive organs a vacation. Take it easy during the 7-day program.

Q: If Parastine 2 should make me feel unwell, what should I do?

A: Reduce the dosage to 5 per day until the bottle is empty.

Q: Can elderly people do this program?

A: Yes, it is highly recommended for elderly people to do this program.

7-DAY MIRACLE CLEANSE

LIVER DETOXIFICATION CLEANSING PROGRAM

(Not included—must be purchased separately)

The average American diet contains many toxins that strain the immune system. To counteract the effects of these toxins, it is important to start with detoxifying the colon but then the clogged liver must be treated. After completing the 7-Day Miracle Cleanse Program, it is important to continue your detoxification by cleansing your liver. The liver can contain intrahepatic stones that block bile flow and adversely affect digestion. Toxins in food, parasites, drugs, and dental toxins also put a strain on the liver.

The liver is the largest gland in the body. It performs many functions, working with nearly every fundamental system and process, including homeostasis, synthesis, storage, excretion, filter, and defense. First, it regulates blood sugar levels, lipids, and amino acids. Because it is one of the hardest working regions in the body, it produces heat, which is transported to warmer less active regions.

The liver forms plasma proteins, heparin, bile, cholesterol, and vitamin A from carotene. It extracts many harmful materials from the blood and excretes them in the bile or from the kidneys. For example, drugs are taken up by the liver where they are broken down and excreted. Finally, the liver stores vitamin B-12, and D. The gall bladder is located inside the liver and is the storage place for bile produced by the liver cells.

The restoration of the liver is of vital importance in fighting cancer, as cancer is a symptom of a malfunctioning liver. The immune Perspective article “The Liver, Laboratory of Living,” Dr. Leo R. states, “No disease, especially degenerative diseases including cancer and AIDS could survive longer than a few weeks in the healthy liver.” This is because the liver is responsible for producing antitoxines to neutralize substances that encourage cancer growth. In addition, the liver produces chemicals that fight viruses and bacteria.

FUNCTIONS OF THE LIVER
The liver stores vitamins A, B-12, and D.
The liver also forms plasma proteins, heparin, bile, cholesterol, and vitamin A from carotene.
3-DAY LIVER & GALL B Bladder FLush

1. Each morning upon rising drink 8 ounces of hot distilled water mixed with the juice of one lemon. This is not only stimulating, but also flushes out the digestive organs of leftover residues.

2. Within 15-30 minutes, mix the following in a blender:
   - 8 ounces fresh orange, lemon, lime, grapefruit, or tangerine juice or a combination
   - 8 ounces of distilled water
   - 2-4 Tbsp. of organic virgin cold pressed olive oil
   - 2-4 peeled cloves of garlic
   - 1 pinch of cayenne pepper
   - 1 piece of peeled fresh ginger root

   Blend well and drink.

3. Drink plenty of fresh fruit and vegetable juices throughout the day diluted 25% with distilled water.

4. Drink fresh wheatgrass juice. If you have never had wheatgrass juice before, start with one ounce and increase.

5. Drink at least four cups daily of Health Man’s Detoxification Tea. Try adding lemon to the tea.

6. Take 10-20 capsules per day of LVR-C3 with distilled water or fresh juice.

On Day 4, you will break your liver cleanse. Eat soft fruits such as ripe bananas, avocados, pears, and peaches. Drink plenty of fresh juices. In the evening, eat a fresh salad and soup.

After you have cleansed your liver, you need to follow up by taking care of it:

1. Negative emotions like anger can put a terrible strain on your liver so remember to love yourself and to have fun.

2. Avoid processed foods, caffeine, alcohol, refined sugar, artificial sweeteners, fatty foods, processed flour, smoked foods, preserved foods, and animal fats.

3. Try not to overeat, as it strains your liver, and choose lighter foods. Also, eating smaller meals more often is better than one or two large meals. Avoid eating before bed.

4. Enjoy your newfound food choices, such as whole grain foods, raw seeds, nuts, and fruits, raw or lightly steamed vegetables.

5. Continue to drink fresh juices, especially beet, wheatgrass, and alfalfa.

6. Exercise is important to maintain a healthy liver because deep breaths flush the liver of toxins.

7. Eat parsley or kale to stimulate bile flow.

VEGETABLE BROTH
Vegetable broth is a great addition to your cleansing program because it helps flush out unwanted salts and acids while providing a concentrated amount of vitamins and minerals.

WHY CLEANSE?

1. DETOXIFICATION
We live in a toxic environment in which we are exposed to harmful chemical additives in our food and hazardous wastes in air, water, and food supplies. In addition, our bodies produce toxins as a product of metabolism. These toxins accumulate in our bodies and cause damage we may not immediately detect; however, toxic build-up will eventually severely damage our immune systems. Thus, supreme cleanliness is the first step toward achieving a healthy body. Any accumulation or retention of morbid matter or waste of any kind will retard the recovery process. The channels of elimination are the lungs, sweat glands in the skin, the kidneys, and the bowels.

It is paramount to your health that all eliminative channels operate efficiently. The lungs expel carbon dioxide, a waste gas from the metabolism of food in the body’s cells. Sweat glands secrete perspiration, composed of water, sodium chloride, and the toxins urea, ammonia, and uric acid. Urea, ammonia, and uric acid are waste products of protein metabolism and would be damaging to the body if retained. Every day, your kidneys process approximately 200 quarts of blood to sift out about two quarts of waste products and extra water. The wastes in your blood come from the normal breakdown of active tissues and from the food you eat. If your kidneys do not remove these wastes efficiently, the wastes build up in the body and damage your body. The liver extracts many harmful materials from the blood, including drugs, heavy metals, and poisons and excretes them from the kidneys. In other words, the kidneys excrete the end product of food as well as waste from the liver. The bowels are responsible for processing and eliminating food waste in the form of detritus, cellulose fibers, and other indigestible substances, which are the results of our physical and mental activities. The internal organs cannot hold a lot of toxins, and it is impossible to remove them without cleaning. If these toxic wastes are not eliminated, they will cause toxemia. The 7-Day Miracle Cleanse Program is a professional cleansing system that gives the body the opportunity “clean house” and to eliminate toxins and other foreign materials.

Because everyone lives in a toxic environment, proper nutrition and the regular use of the 7-Day Miracle Cleanse Program are necessary for survival. In most people, the entire digestive tract is polluted with poisonous, toxic residues. Parasites, including worms, thrive on these toxic materials, which are also collected in the mucous plaque throughout the digestive tract. Parasites can enter the bloodstream because the blood is fed by the bowels. The retention of such noxious ingredients can only bring decay, disease, and poor health. Take the first step toward a healthy body and complete the 7-Day Miracle Cleanse!
WHY CLEANSE?

2. CONSTIPATION

It is estimated that over 97% of the population is constipated. According to Dr. Norman Walker, the number one affliction underlying almost every ailment is constipation. In other words, it is "the primary cause of nearly every disturbance of the human system." This is because the blood vessels lining the colon collect nutrients missed by the small intestine. In his book Pure and Simple Natural Weight Control, Dr. Walker explains, "If the feces in the colon have putrefied and fermented, any nutritional elements present in it would pass into the bloodstream as polluted products. What would otherwise be nutritional becomes, in fact, the generation of toxemia...a condition in which the blood contains poisonous products which are produced by the growth of pathogenic or disease-producing bacteria." Sipples can be an indication of the presence of toxemia. The typical American diet causes the colon to be filled with toxins that strain the eliminative channels and ultimately, the immune system.

The human body is made up of live cells but when we congest our body with cooked foods made up of dead cells, the digestive process slows to a crawl. Man-made chemicals, de-vitalized foods, cooked foods, and foods that are not fresh are virtually indigestible and therefore slow down the digestive tract. The walls of the colon are equipped with sensitive nerves and muscles whose function is to create a wave-like action, called peristaltic waves. These waves move the fecal waste products through the colon. When the bowels slow down to a crawl, or become impacted, it is then that wastes have the opportunity to ferment and putrefy in the colon, causing toxemia. The symptoms of constipation include infrequent bowel movements, passage of hard stools, and difficulty in passing stools.

The length of time that fecal matter sits in the colon is a problem that Americans need to worry about. In other countries, where processed foods are not as accessible, people have one bowel movement per meal eaten. Ideally, fecal waste should stay in our system 6 to 8 hours, but no longer than 24 hours. In America, where processed foods are diet staples, the transit time averages from 72 to 96 hours. This gives the fecal matter time enough to become purid, ferment, and build up toxins that can affect every part of the body. In summary, if you do not have bowel elimination after every meal, you are constipated.

As a result of a diet high in fat and protein, the feces of North Americans have only about half the bulk of Far

Eastern or African populations, and are eliminated from the intestinal tract much more slowly. Studies have shown that indigenous African peoples consume 75-100 grams of fiber daily and have a fecal transit time of 4-6 hours, whereas the average American consumes only 12-17 grams of fiber daily and has a fecal transit time of 60-90 hours. Correlating to these figures, the rate of colon cancer is far higher among North Americans, suggesting that the retention of a fat-laden, compact fecal mass in the lower bowel contributes to cancer development.

Constipation is the retention of feces caused by hardened mucous plaque residues that line the walls of the colon and act as plaster. In order to decrease the amount of toxins absorbed into the bloodstream from the colon, mucus is created to act as a barrier from the waste of uncertain foods, especially meat, dairy, white flour, and other processed foods. The mucus is actually a natural defense mechanism of the body and could be efficiently eliminated through the colon if it did not occur frequently. But most people eat mucus-producing foods every day, creating a toxic build up of layers and pockets of mucous plaque and decayed fecal matter, which can stay in the colon for many years. One function of the colon is to absorb water, so some of the epithelial cells of the colon secrete a lubricant for the drying mass of undigested food residue. With the presence of mucous plaque and encrusted fecal matter, it is not possible for the lining of the colon to function efficiently, and the colon cannot produce its necessary lubrication. This further intensifies a state of constipation and toxemia.

First and foremost, the mucous plaque that has been developing over your lifetime must be eliminated. It is important to maintain the digestive tract by thoroughly cleansing using the 7-Day Miracle Cleanse. Ideally, the program should be completed every six months to prevent mucous plaque from developing on the walls of the colon ever again.

3. COLON CLEANSING

(Optional, but recommended for better results)

Dr. V.E. Irons, a bowel specialist, said toxic colon has everything to do with premature aging. Over 100,000 people die from colon cancer every year and millions suffer from terrible health problems caused directly by a diseased colon. According to the Merck Manual, well-respected medical publication, diverticulosis is a major colon disease that has increased over the last 40 years. 10% of adults in 1950 to the current finding that every adult person has re

diverticulae. The U.S. Public Health Service reports that 90% of the population has a clogged colon. According to the great N.W. Walker, D.Sc., Ph.D., who was a leading authority of health and wellness, «The best diet is no better than the worst diet if you don’t cleanse the colon properly.» Cleansing the colon is the single most crucial hygienic need of the human body.

Why are we so reluctant to talk about the most vital part of the body? Our society has conditioned us into avoiding the most critical part of our body while encouraging the cleanliness of other parts. Everyone dreads the other orifices of the body, but it is pure ignorance not to cleanse the filthiest part. Your anus and colon are considered to be the sewer of the body so you avoid them, but sooner or later, you are going to have to address this issue. Prevention is the only way to ensure that your immune system is not compromised by the build-up of mucus plaque and toxins. Maintaining a diet composed of fresh fruits and vegetables and fresh juices, along with periodic colon cleansing can hinder or prevent sickness and disease. Colon cleansing is one of the important components of the 7-Day Miracle Cleanse.

The colon is not merely the sewer of the human body; it is the center of the human body. It has many nerves connected to all vital points of the body and when stress is created in the colon by pressure, it can have a direct effect on the nerves leading to particular points of the body. Thus, it is imperative to keep the colon free from any mucus build up. Mucus is formed because of the residues of certain foods. Foods that are not composed of fresh fruits and vegetables, raw nuts and seeds will encourage the production of mucus. Each meal eaten of dead foods leaves a microscopic residue on the walls of the colon. This material averages 1/8 to 1 inch in thickness. Over the years, it putrefies and becomes as hard as black tree rubber, stuck to the walls of the colon.

If achieving a clean colon were as simple as washing out the loose material on the inside of the colon, it would not be difficult to clear away; a colonic would do the job. What is a colonic? A colonic is similar to an enema that cleanses the entire length of the colon and sometimes the appendix. It is also referred to as hydrotherapy, colon cleansing, or colonic therapy. It is a repetitive washing of the colon using lukewarm water, filling the colon with up to a quart at a time, expelling the water time after time, until the bowels are empty. Unfortunately, it is not that easy. One reason is the presence of hardened mucus plaque lining the walls of the colon. Another reason that a
7 Day Miracle Cleanse

**WHY CLEANSE?**

Colonic alone is not sufficient in cleansing the colon; it is the presence of diverticulae, sacs that extend through the colon. Diverticulae are caused by a sluggish, constipated bowel. They act like pockets as they become packed with fecal matter and can cause the bowel to retain up to 20 pounds of toxic, putrid waste stuck to the walls of the colon. Obviously, this creates a filthy environment and an ideal breeding ground for sickness and disease.

In order to ensure success in cleansing the colon, the Herbal Mucus Eliminator must be used in conjunction with colonicics during the 7-Day Miracle Cleanse. As the herbs activate and loosen the mucous plaque over the seven-day period, the daily colonic or enemas assist to dislodge this filth from the walls of the colon and remove it from your body.

Colonics should only be administered by a Colon Hydrotherapy Specialist.

**4. ACHIEVING PERFECT WEIGHT**

Achieving your proper body weight is easy and yet, Americans have a big problem. The U.S. Surgeon General reports that 61 percent of adults are overweight, and 8 percent of teenagers are overweight. A major nutritional problem among Americans is obesity. In the last 20 years, the rate of obesity has doubled among adults and tripled among children. According to the CDC, 30 percent of middle-aged women and 15 percent of middle-aged men are obese. Accor
WHY CLEANSE?

To the American Society for Bariatric Surgery, 16 million Americans are morbidly obese. A person who is more than 120% of his or her appropriate weight is considered obese. More than 300,000 people die each year from diseases caused by excess weight. Obesity is correlated with a significant increase in coronary artery disease, diabetes, and other disorders. In the year 2000, obesity cost the country $117 billion in health care expenses.

Why are over 200 million people overweight? The answer is conditioning. We have been tricked, misled, and lied to by advertisers, in the name of greed. Take a look in the mirror and ask yourself how it makes you feel to have been deceived all these years by schools, doctors, and food corporations. Almost all corporations advertising on radio, television, billboards, and other media sell man-made products because these companies are only interested in profits! In the year 2001, McDonald's spent $1.1 billion on advertising. On the other hand, vegetables and fruits are rarely promoted because there is not enough profit involved. The man-made "foods" that are relentlessly advertised you must not eat because they are composed of processed foods, dead foods, and added chemicals. They are indigestible and contain little to no nutritional value. For example, cereal gains have as much nutritional value as table sugar when they are milled into flour. Your body actually reacts a defense system against these foods, by producing mucus to protect itself. The mucus hardens against the walls of the colon and gradually becomes thick and hard, interfering with the functioning of the colon and ultimately, every body system.

To illustrate the point that Americans have been conditioned to consume unhealthy diets by relentless advertising campaigns, consider a study conducted by obesity researchers of 15 industrialized nations, including the United States. Teenagers in the United States are ranked number one in obesity because they are more likely than teenagers in other countries to eat fast food, snacks, and sugary sodas. On the other hand, Lithuania has the one of the lowest rates of obesity because Lithuania has few fast food restaurants. As another example of conditioning, consider the fact that the average American consumes about twenty times more salt than our bodies need. Excess salt has been linked to hypertension. Another health hazard is animal fat, such as that present in beef and pork. It has been known for some time that diets high in animal fats somehow interfere with the regulation of blood cholesterol, implicated in atherosclerosis and heart attacks. Remember that the foods you eat...
**WHY CLEANSE?**

are your only defense against the effects of stress, radiation, pollution, and toxic chemicals. Eating processed foods that are nutritionally empty leave the body vulnerable to poor health and low energy.

Not only have you been misled by corporations, you have also been misled by governmental entities such as the USDA. The USDA has notoriously downplayed the health risks of red meat and dairy products in order to protect the dairy and cattle industries. For example, scientists have known about the dangers of red meat and dairy products since the 1960's. Milk is a high-fat drink that is designed to turn a 45-pound calf into a 1000 pound cow in just 18 months. The fact is that humans are the only species to consume milk after infancy and the only species to take another species' milk. Milk is baby food for cows and is unnatural for people. This is why it often causes allergic reactions, digestive disturbances, and it is also linked to heart disease. Eggs contain an extremely dense concentration of cholesterol. They are intended to support a baby chick for 21 days while it is developing. When people eat eggs, the cholesterol enters the bloodstream and increases the risk of heart disease. The human body actually produces all the cholesterol it needs and can only dispose of 100 mg of extra cholesterol. Any more than 100 mg of extra cholesterol taken per day begins clogging the arteries. Finally, the USDA Food Guide Pyramid has now been banned for the epidemic of obesity because it leads people to believe that all fats are dangerous while carbohydrates are healthy choices. The reality is that excessive carbohydrates lead to obesity and the wrong carbohydrates can be deadly, while fats found in fish, nuts, and vegetables help protect against disease. Now that you know the truth, make this part of your thoughts at least twice a day. This is how you are going to recondition yourself to change the old eating patterns.

How simple is it to achieve optimal body weight? First, 80% of your diet should be limited to fresh fruits and vegetables, especially fresh vegetable juices. Fresh juices should make up at least 50% of your daily food. Eliminate all sugar, white flour, most dairy products — especially pasteurized milk, nicotine, caffeine, soft drinks, alcoholic beverages, and salt. These products are dead and have no nutritional value. There are the "foods" that have created the body you currently have. To locate foods with minimal amounts of undesirable ingredients, start shopping at the local natural foods markets and buy organic products whenever possible. Start reading the
WHY CLEANSE?

Labels for denatured ingredients. Do not buy labels that claim to be “fat free” because these words do not mean anything. This is more deceptive advertising. Don’t drink juices that are pasteurized or cooked because these juices are dead. For example, cooking or processing vitamins destroys them. Find recipes for fresh foods. Remember to think FRESH. This is important so that you don’t revert to your old body and old eating patterns. Finally, prescription drugs are poisonous to the human system. Most people are afraid to stop taking medication. If you regularly complete the 7-Day Miracle Cleanse Program and change your diet, you are going to discover that you do not need any drugs. Let it happen and you’ll see for yourself that all you need is the right guidance. Begin your metamorphosis today!

According to the concept known as adaptive thermogenesis, thin people can consume large amounts of food without gaining weight because the appetite suppressor speeds up metabolic activity to compensate for the increased consumption. Thermogenesis allows the body to burn excess calories by generating heat. Defective thermogenesis causes the transformation of a larger fraction of a caloric intake into body fat resulting in weight gain and obesity. Specialized types of fat cells, called brown fat cells, send signals to control the thermogenesis response. The primary role of brown adipose tissue is thermogenesis and overall energy control. Some diets actually suppress thermogenesis, which is the opposite of what you need to lose weight; to lose weight, you want to speed up metabolism, not slow it down. This is why 95% of diets fail. The 7-Day Miracle Cleanse is a diet that supports thermogenesis and you will lose weight.

If you are overweight, your glandular system is all clogged up. In order to lose weight, your body needs an efficient and balanced glandular system to support thermogenesis. The most critical gland in weight control is the thyroid gland because it is usually the cause of the imbalance. The thyroid is a butterfly-shaped gland located in the neck, surrounding the windpipe. It produces the hormone thyroxine, which serves to regulate the rate at which metabolic reactions occur in the body. Thyroxine is essential to induce thermogenesis. Thyroid hormones are released into the bloodstream and are transported throughout the body where they control metabolism. Metabolism is the conversion of oxygen and calories (food) into energy. Every cell in the body depends upon thyroid hormones for regulation of their metabolism. As thyroxine levels

increase, so does the relative speed at which reactions occur and so does the caloric expenditure. As thyroxine levels decrease, so does the speed of metabolism. Only proper nourishment and internal cleansing can balance this gland and until the thyroid is balanced, it is not possible to lose weight effectively. This is why most weight loss programs are insufficient.

People have been trained and programmed to eat the wrong foods, so realize this and know that you must make the commitment to changing the way you eat and regularly completing the 7-Day Miracle Cleanse Program. You should change your eating habits gradually so you and your body will have an easier time adjusting. Over a period of one to three months, reduce your meat intake by one serving every week until you have eliminated all meat products. For example, if you eat meat four times a week, next week you will reduce your intake to three times, and so on, until you have eliminated all meats from your diet. Also, eliminate all dairy products, sugar products, soft drinks, milk, nicotine, caffeine, salt, and alcoholic beverages. If you feel you can be more aggressive than this, it is definitely in your best interest to do so. Be aware of what you put into your body and do not be afraid to speak up for eating the right foods. If you are severely overweight, you can expect to lose up to 40 pounds during the cleansing program. The average person will lose eight to 15 pounds, typically in the chin, abdomen, thighs, and hip areas, as these are the places your body stores fat first. Thousands of people have proven that this is one of the most balanced weight loss programs and it really works. Prepare for the 7-Day Miracle Cleanse and complete it. You life will change forever!

5. PREVENTING/ FIGHTING ALZHEIMER’S DISEASE

According to Dr. Phillip Hodes, there are steps everyone can take to prevent or treat Alzheimer’s disease:

1. Eliminate any sources of aluminum. For example: cookware, utensils, foil, underarm deodorants, drinking water, juices and drinks packaged in aluminum-lined cartons, and vitamins and bottled water in bottles with a tamper-proof aluminum seal across the top.

2. Undergo a brain and body detoxification program, which includes a fast. Raw juice therapy helps flush out the toxins and brings live enzymes into your system. Colonic irrigation will help clean out the colon of years of accumulated material and help the body function properly. Drinking distilled water is also beneficial, along

COMPONENTS OF THE 7 DAY MIRACLE CLEANSE

1. PARASITES AND PARASINE 2

Before you protest, "Me, parasites? No way!" consider the fact that, according to the USDA, the average cubic inch of beef contains up to 1200 larvae. If you do not wash your vegetables, larva can get into your system. It is estimated that 80-92% of the population suffer from parasites and don't know it. This is because by the time symptoms appear, the parasites have probably been in your system for ten to twelve years. What we once thought was an affliction of third world nations has become the disease of Americans. We get them through undercooked meats and fish, unwashed vegetables, milk, impure water, dogs, and cats. Parasites start in your intestinal tract where they breed and find food, robbing you of nutrients your body needs to stay healthy. Although non-organic commercial chemical fertilizing practices have already robbed most of the nutrients from the food you eat, these parasites take what is left. This, in turn, makes you have cravings and feel hungry most of the time, which causes you to habitually overeat. There are many kinds of parasites, including flatworms, roundworms, fungi, and microscopic parasites such as bacteria and protozoans. They thrive on mucus and acid-forming foods like meats, dairy products, chips, peanuts, eggs, coffee, sodas, and alcoholic beverages.

Parasites are purveyors of sickness and disease.

Most parasites are too small to see with the naked eye. Over time, they can grow bigger or multiply rapidly and rob you of the abundance of nutrients from your body. This may sound alarming but it is a reality. The answer to the question of how to get rid of these parasites is by taking a clinically proven herbal combination called Parasine 2 and following it with the 7-Day Miracle Cleanse Program. Before you begin either program, the recommended dosage is 10 capsules a day until the bottle is gone. The Parasine 2 will kill the parasites in your body and the cleanse will eliminate the dead parasites. Follow up with a second bottle of Parasine 2 just before your second cleanse, which should be completed seven to eight weeks after your first cleanse. This should kill and eliminate the eggs that the original parasites laid before the first cleanse. Thereafter, to remain parasite-free, complete two bottles per year. It is important that after you complete the 7-Day Miracle Cleanse Program, you do not eat foods that are normally infested with high parasite counts.
COMPONENTS OF THE 7 DAY MIRACLE CLEANSE

2. HERBAL MUCUS ELIMINATOR

Colonics are recommended by some therapists to clean a toxic bowel but with hard, toxic fecal matter locked into the folds and diverticulae of the colon for years, a colonic alone will not be a sufficient cleansing method. For example, it has been discovered that the average middle-aged meat eater can carry around a colon with five to fifty pounds of impacted fecal matter. Because of poor eating habits, it is not uncommon for Americans to have fecal matter in their colons nearly as old as they are.

The solution for complete cleansing is the use of the Herbal Mucus Eliminator, a completely natural herbal mixture containing psyllium seed, lactobacillus bifidus, bentonite in an herbal base of alfalfa leaf, sagrad bark, rose hips, buckthorn bark, garlic, goldenseal, and capersium. The Herbal Mucus Eliminator serves to activate and loosen mucous plaque from the walls of the colon so that a colonic can then efficiently wash it from the body.

Psyllium is a derivative of the Manago ovata plant, an annual herb native to Asia, the Mediterranean region, and North Africa. It promotes intestinal acid/alkaline balance, important for maintaining colon ecology. Because it is 70% bulk-forming fiber, it acts like a sponge to absorb toxins and undigested material, which it carries through the digestive system.

Lactobacillus is a probiotic bacteria species that occurs naturally in the intestines. It is a symbiotic organism, beneficial because it supports healthy immune function and aids in the absorption of calcium. The presence of lactobacillus bifidus helps prevent fungus infection, diverticulosis, acne, and bad breath. It also promotes acid/alkaline balance.

Bentonite is another important cleansing agent, recognized by native peoples for centuries. It is volcanic clay derived from deposits of weathered volcanic ash. When combined with water, it expands and acts like a sponge capable of binding various types of wastes. According to the Canadian Journal of Microbiology, the bentonite clay is eliminated from the body with waste bound to it. Bentonite is also beneficial in that it contains 70 trace minerals. The alfalfa leaf base is an alkalizer.

Sagrad bark has been used by cultures around the world, including Native Americans. Meaning "sacred bark", it was named by Spanish missionaries who observed its use for medicinal purposes. Modern research has shown that it...
Components Of The 7 Day Miracle Cleanse

Encourages peristalsis and the release of bile, and promotes the growth of friendly bacteria.

Buckthorn Bark has been used as a remedy for constipation because it stimulates the colonic muscle. It has also been shown to fight some cancers.

Goldenseal, Hydrastis canadensis, is a native American medicinal introduced to early settlers by Cherokee Indians that is derived from the roots of a small forest plant and serves to stimulate peristalsis.

During the 7 Day Miracle Cleanse, you will be taking seven capsules in the morning and seven capsules in the evening of the Herbal Mucus Eliminator.

3. Super Boost Greens

Highly recommended for continued daily use.

Spirulina and Kelp

In the protist kingdom, there are more than 25,000 species of algae that can be found living everywhere: in water, on rocks, in soil, and on plants. Algae range in size from microscopic, single celled micro algae, to large macro algae such as the giant kelp, which can be over 150 feet long. Ocean micro algae, called phytoplankton, are the base of the entire ocean food web. Micro algae families include blue green algae such as spirulina and green algae such as chlorella. Super Boost Greens contain the micro algae spirulina and the macro algae kelp. Both of these are super foods because they are the world's healthiest foods and both have a long history of human consumption; the use of kelp or seaweed as a food and health source is recorded back to BC.

Spirulina is an organism that has survived for 3.5 billion years. It contains 60% vegetable protein, and is the highest protein food containing all the essential amino acids. In addition to providing an excellent source of protein, spirulina provides phytoneutrients. For example, the antioxidant beta-carotene is ten times more concentrated in spirulina than in carrots, and chlorophyll is a natural cleanser for the body. The rare essential fatty acid Gamma Linoleic Acid, GLA, found in mother's milk to help develop healthy babies. The only other whole food source of GLA is spirulina. Finally, spirulina is also rich in vitamin B-12, promote healthy nerves and tissues, magnesium, and trace minerals. There are naturally in spirulina is easier absorb than iron supplements. Beep is easy to digest, nutrients are absorbed quickly.
COMPONENTS OF THE 7 DAY MIRACLE CLEANSE

Rainwater washes minerals from the land down to the sea where they are incorporated into seaweeds, which have extraordinary nutritional benefits. Seawater has almost the same proportion of minerals as human blood and kelp is rich not only in essential minerals, but trace elements, amino acids, and vitamins as well. It is also high in fiber.

Kelp is a good source of the minerals calcium, iron, and iodine. Compared with dairy products, kelp provides up to ten times more calcium and iron by weight. It also contains the trace elements zinc, boron, chromium, selenium, and tin.

Seaweed contains high levels of vitamins A and B12, usually found only in meat, and also supplies all the average amounts of virtually every other vitamin including C, E, K, and the B complex: thiamine, riboflavin, niacin, B6, and B12. By using kelp in moderation as a food supplement, you can furnish your system with necessary minerals not readily obtainable in most vegetables.

One of the most amazing benefits of kelp is its ability to rid the body of radioactivity. Strontium 90 is a radioactive element emanating from nuclear power plants. It has a high affinity for calcium and can be easily concentrated in calcium rich foods such as milk and leafy greens. When contaminated foods are eaten, the radioactivity enters the bone marrow along with the calcium and damages immune and blood cells. Alginic acid, one of the main components of seaweed, binds with radioactive strontium to form strontium alginate, and because it is insoluble, it is rapidly eliminated from the body. Consistently eating seaweed can reduce absorption of strontium 90 by 50% to 90%.

Seaweed strengthens the circulatory system, helps lower cholesterol, and provides optimum nourishment for the hormonal, lymphatic, urinary, circulatory, and nervous systems. Seaweed inhibits the growth of many viruses, and bacteria. This directly assists the immune system, as does seaweed’s antioxidant ability. Seaweed has a soothing effect on the digestive system and creates an inner environment where nerve signals flow more smoothly and brain chemicals are produced as needed. Seaweed can dissolve fatty build-ups in the body.

GOTU KOLA

Gotu kola is a creeping plant related to parsley, found in tropical climates, especially in India and Sri Lanka. It is not related to the caffeine-containing kola nut used in original cola drinks. Based upon observations that elephants feed extensively on the plant and the belief that it...
Components Of The 7 Day Miracle Cleanse

Wheat grass contributes to the long life span of the elephant, a Sri Lankan proverb proclaims, "Two leaves a day will keep old age away." Historically, gotu kola has been used in India and Indonesia to promote wound healing, prolong life, increase energy, and enhance sexual potency. Modern researchers have proven that gotu kola benefits the nervous, circulatory, and immune systems.

In the 1970's researchers found significant evidence that gotu kola improves symptoms of varicose veins as it strengthens the epithelial tissue that lines the outside and inside of blood vessels and arteries, as well as strengthening the connective tissue sheath surrounding veins. In fact, gotu kola has a general strengthening and toning effect on connective tissue and is recommended for skin conditions and for improving burn and wound healing, including scars as a result of surgery.

Because gotu kola improves circulation and builds circulation in the brain, it has a beneficial effect on the chemistry of the brain. Two of the active compounds in gotu kola, terpenes and saponin glycosides, produce a calming effect. A recent study confirmed that gotu kola is helpful for relieving anxiety and stress. It contains many nutrients to feed the nervous system especially vitamins A, B, E, G, and K. and magnesium. It is used to improve memory and mental clarity. Finally gotu kola breaks down the walls of invaders. Immune system benefits result from this antibiotic.

Wheat Grass

Dr. Ann Wigmore pioneered the use of wheat grass in the late 1950's. After testing various grasses she discovered wheat grass contains every vitamin identified by science and all known mineral elements. It is especially high in calcium, magnesium, phosphorous, and potassium, as well as the trace minerals zinc and selenium.

Like all green plants, wheat grass chlorophyll, the chemical responsible for all life on earth because it drives the process of photosynthesis. Chlorophyll has also been proven to benefit the human body in countless ways. Scientist Dr. Birscher found that chlorophyll increases the function of the liver and affects the vascular system, the intestines, the uterus, and the lungs. It is also helpful in purifying the blood, hindering the growth and development of harmful bacteria. Chlorophyll can be used to treat anemia by rebuilding red blood cells in the bloodstream, shown by research in which animals with low red blood counts were given chlorophyll and had improved.
COMPONENTS OF THE 7 DAY MIRACLE CLEANSE

normal red blood cell counts after just four to five days. It is a natural detoxifier and body detergent having the ability to purify the blood, cleanse the tissues and cells, and remove harmful toxins from the body. The use of wheat grass has been proven to benefit the blood cells, bones, glands, hair, kidneys, liver, muscles, spleen, teeth, and other body parts. It is used in the treatment of many common ailments such as high blood pressure, diabetes, constipation, female problems, and colitis.

Magnesium contained in wheat grass helps to build enzymes that restore sex hormones and to relieve constipation.

SPINACH LEAF

Spinach leaf is rich in potassium and folate. It reduces the risk of cancer and protects against eye degeneration and heart disease. Because it provides an ample amount of iron, it is used to avoid or to relieve anemia or iron deficiency.

You will begin taking six capsules of Super Boost Greens daily, along with Parasite 2, and continue taking six capsules during the cleanse. It is highly recommended for continued daily use after completion of the program for all the health benefits discussed above.

4. DETOXIFICATION TEA (PURCHASE SEPARATELY)

To place your order visit the website at www.7dmc.com

The detoxification tea is a special blend invented by the Health Man and is not available with any other program. All herbs are of the freshest and finest quality and are measured by hand to ensure the proper balance. Ingredients include milk thistle seed, dandelion leaf, Pau D’arco, ginger root, ginko leaf, juniper berries, burdock root, gotu kola (see above), and fenugreek. Many of the herbs have been used by cultures around the world for centuries.

The most ancient of all herbal remedies, milk thistle seed is extracted from a tall herb with prickly leaves and a milky sap. Native to the Mediterranean region, it has been used for centuries for liver complaints. Recent research has indicated that it does contain liver-protecting compounds. The antioxidant silymarin has liver protective effects against a variety of poisons; numerous studies have shown its benefits to the liver. As an antioxidant, silymarin protects cell membranes from free-radical damage.
Components of the 7 Day Miracle Cleanse

Dandelion is a perennial herb used to promote formation of bile and remove excess water and poisons from the body. It is also given for constipation, fever, and insomnia.

Pau D'arco is derived from the inner bark of a tree native to South America. It has blood-cleansing capabilities but also functions as an immune system builder, as it displays anti-yeast, anti-fungal, antibacterial, and anti-viral properties. Pau D'arco has also been used in the treatment of candidiasis, smoker's cough, leukemia, warts, infections, cancer, liver diseases, diabetes, AIDS, tumors, ulcers, rheumatism, and allergies.

Ginger root, from the rhizome of the perennial plant Zingiber officinale, has been used in Asian medicine for 5000 years to treat ailments such as cold symptoms and nausea. The Greeks wrapped bread around ginger as a digestive aid, thus inventing gingerbread. It was used in Indian medicine as a cleanser and to relieve digestive problems and in England for diarrhea and nausea. Ginger is proven to stimulate circulation, relax blood vessels, promote sweating, and ease cold symptoms including sore throat and cough.

Ginkgo leaf comes from one of the oldest living species of tree, dating back 300 million years; the trees live to be over 1000 years old. Like ginger, it has been used in Chinese medicine for more than 5000 years to treat lung ailments and cardiovascular diseases. Recent research indicates that not only does it contain antioxidants such as vitamin C and carotenoids but also flavonoids that can dilate capillaries of the circulatory system. Many studies show this action to be beneficial to the brain because it increases blood circulation, improves flow, and increases oxygen in the brain.

Juniper berries are picked from short evergreen shrubs and have been used by Greek, Arab, and Native American medicine to relieve gas and colic and stimulate digestion. The berries contain the oil terpinen-4 that stimulates the kidney to increase filtration.

Burdock root is the taproot of a biennial herb native to China, Europe, and the United States. It is used to purify the blood as well as to treat gout, ulcers, arthritis, acne, and psoriasis. In Chinese medicine, it is used to treat impotence and sterility.

Finally, fenugreek seed comes from an annual plant which produces yellow flowers and a fruit containing 16 seeds was used by ancient Egyptians, and Hippocrates, as a general restorative. Since that time, it has been shown to lower serum cholesterol and to help control diabetes.

Remember
This program is about using your common sense. To cleanse is to purify!
COMPONENTS OF THE 7 DAY MIRACLE

5. FRESH JUICES

In the process of making juice, fiber is discarded leaving enzymes, nutrients, and 99% organic water. Our bodies can effortlessly digest juice for immediate benefit. The following example illustrates why fresh juice is so beneficial. It takes 70 to 80 carrots to produce a gallon of fresh carrot juice. In the course of a few hours, you could consume one gallon of fresh carrot juice and you would assimilate the nutrients of all the carrots. On the other hand, it would be difficult to consume 70 to 80 carrots in the same time period and not only would it would be very taxing on your digestive tract but the benefits would not be the same. It would take hours to digest the whole carrots versus only minutes for the carrot juice.

The juices extracted from raw vegetables and fruits are the means by which we can nourish all the cells and tissues in the body, as they are the most readily digested and assimilated. It is important for the juices to be raw because if they are canned, processed, preserved, or pasteurized, they are enzyme deficient. All of these unnatural processes cause enzymes to degenerate, forcing the body to use its own limited supply to digest food, which hastens aging and contributes to low energy levels.

Note: The capacity of your stomach is approximately one quart. Therefore, you can safely drink one quart at a time. Wait 20 minutes to consume more juice.

WHEATGRASS JUICE

Wheatgrass juice is the water extract from young wheat grass. Drinking the juice benefits the body in numerous ways. Dr. Bernard Jensen recommends wheatgrass juice because it is high in enzymes and takes only minutes to digest, requiring the use very little body energy. The nutrients in wheatgrass juice are assimilated within 20 minutes. Wheatgrass juice is extremely high in chlorophyll, the basis of all life on earth, the benefits of which were previously outlined in the "Super Boost Greens" section.

During the 7-Day Miracle Cleanse, drinking wheatgrass juice will aid in the detoxification process. Because wheatgrass juice is composed of 70% chlorophyll it is a superlative detoxification agent and a potent antioxidant that can wash drug deposits from the body, neutralize toxins in the body, remove heavy metals, and purify the liver. The chlorophyll found in wheatgrass juice actually works as a body detergent, evidenced by its ability to clear up foul smelling odors.
7 Day Miracle Cleanse

**COMPONENTS OF THE 7 DAY MIRACLE CLEAN**

Wheatgrass juice has been shown to improve skin conditions such as acne or scars. In fact, the American Journal of Surgery suggested that chlorophyll (abundant in wheat grass) be used to heal wounds, and eliminate impetigo and other scabby eruptions, as well as to treat ear infections, varicose veins, sinusitis, and inflammation of the cervix. It can promote dental health by preventing tooth decay and when held in the mouth, can alleviate toothaches by pulling poison from the gums. Wheatgrass juice improves digestion and blood disorders.

Finally, in his book on wheat grass juice, the "Soupman" proclaims that wheatgrass juice promotes a sense of wellbeing and spirituality, which are integral aspects of health.

**CANDIDIASIS OR CANDIDA - YEAST**

The yeast like fungus caused by the Candida albicans organism normally inhabits the vaginal tract of most women but certain conditions will cause these organisms to multiply to abnormal quantities, including diabetes, an overtaxed or malfunctioning immune system, birth control pills or other hormones, or broad-spectrum antibiotics.

People with the yeast infection candidiasis, known as "candida" must not use fruit juices, carrot juice, or beet juice you the Candida has cleared up. Distilled water and other vegetable juices are recommended during your cleanse. The best juice is a celery and cucumber combination. In most cases, Candida is brought on by the use of antibiotics or vaccinations. Antibiotics cause Candida because they destroy most of the friendly bacteria in the bowels allowing yeast to flourish. Also, it is recommended to take a probiotic 3-4 times a day during the cleansing program and continue taking a double dose three times daily after completing the program. Negative emotions must be eliminated as well. This disease can be extremely detrimental because it gradually weakens the whole body, especially the immune system. It also encourages all sorts of other diseases. For example, it is one of the diseases strongly indicative of AIDS development. Though antibodies are the primary trigger, successful Candida overgrowth requires weakened digestive and immune systems, a toxic body, and usually emotional suppression and a destructive point of view. If you are in doubt as to whether you have Candida, you can get a blood test to rest for years.
A MESSAGE FROM THE HEALTH MAN

Healing your body of any affliction is more than a thought, more than an idea. It requires dedication, commitment, and focus. It is a decision to change your life from what you have done previously. Don’t fool yourself any longer; you must make adjustments to your daily routine. Forgive everyone you may have resentment or anger toward; this includes yourself. Begin to love yourself first and foremost because this is necessary in order for you to love others. You must strive to replace hatred, anger, jealousy, wanting, sadness, and greed with love, peace, harmony, growth, balance, and giving. Practice this daily. Start having more fun, laugh more; even have more sex. If you are disorganized, then get organized because this will help you focus on your journey. Begin to change your diet as soon as possible. Start with a daily vegetable juice program, eliminate meat products, flour products, soda, caffeine, tobacco, alcohol, and dairy products. Eat foods with a life force, with live enzymes and nutrients such as fresh fruits and vegetables, raw nuts and seeds, and sprouts. If you do not like your job, start working toward what you do like. After all, paying bills will not mean anything if you die from stress and unhappiness. Detoxify your body regularly by eliminating parasites and clean out your digestive tract with the 7-Day Miracle Cleanse Program. Follow up by detoxifying your liver. The changes you make today will affect your life and health tomorrow. And, it is never too late.

Wash fish very well and place on sheet of
parchment paper or aluminum foil. Add all
ingredients and close paper. Bake in oven at
250 degrees for 30 minutes or 375 degrees
for 10-15 minutes. Serve with rice pilaf and
vegetable salad. Serves 2 people.

**STEAMED VEGETABLES OVER RICE**
2 cups brown rice
4 cups distilled water
2 carrots cut into coins
1 pound of broccoli, cut into small flowerets
head of cauliflower, cut into bite sized pieces
1 small zucchini, cut into half-circles
1 onion, chopped
6 to 8 mushrooms, sliced

Cook rice in distilled water until all the water
has been absorbed. Place vegetables on top
of rice, cover, and let steam until almost soft.
Top with grated Swiss cheese and season to
taste with vegetable salt.

VEGETABLE TACOS

1 package corn or wheat tortillas
2 Roma tomatoes, sliced
1 onion, finely chopped
2 avocados, sliced
1 package Swiss cheese, cut into strips
1/2 head of Romaine lettuce, finely choi
Sour cream
Fresh salsa

with remaining ingredients. Serve with
Spanish rice and beans.

VEGETABLE RICE PILAF

1 red bell pepper, finely chopped
4 to 5 scallions, finely chopped
2 stalks of celery, finely chopped
Basmoti or long grain brown rice
Cook rice according to package directions.
Sauté all other ingredients in canon or olive
for three minutes. Add cooked basmati or
long grain brown rice, season with chopp
parsley, dash of cayenne pepper, and one more
of the following: vegetable salt, Brag
liquid aminos, Spike, Cr. Bronner bouillon.
Serve hot.
RECIPE FOR BETTER HEALTH

DESSERTS

FRUIT DELIGHT
2 pears, peeled and sliced
6 dates, sliced
2 Tablespoons honey
1 pint raw whipping cream
Walnuts, ground

Place pears and dates in chilled dessert glasses. Beat cream and honey with a mixer until cream is thick to your liking. Put on top of fruit and sprinkle nuts on top. Serve chilled.

CAROB DELIGHT
1 cup each of peanuts and sunflower seeds
1/2 cup coconut, shredded
1/2 teaspoon vanilla
2 yellow apples, peeled, cored, and sliced
1/2 cup carob
1 pint whipping cream
2 Tablespoons honey

Combine peanuts, sunflower seeds, coconut, vanilla, apples, and carob in a blender and blend until smooth. Spoon into dessert glasses and chill. Mix honey and cream and beat until thick. Top each dessert glass with cream and serve.

CINNAMON WHIP
2 apples, cored and grated
2 Tablespoons honey
1 teaspoon cinnamon
1 pint whipping cream
1 ripe banana, mashed
Almonds, ground or sliced

In blender, combine cream, honey, and cinnamon. Beat until thick. In dessert glasses, layer apples, cream, bananas, cream. Top with almonds and serve.

MANGO SPECIAL
2 bananas, sliced
2 mangos, skinned and seeded
1 apple, cored and peeled
2 peaches, peeled and pitted

Combine ingredients in blender and blend until smooth. Serve on cottage cheese, whipped cream, or sour cream.

CREAMY PERSIMMON
1-2 persimmons, mashed
1 Pint whipping cream
2 Tablespoons honey
Almonds, ground or sliced

Persimmons must be very ripe. Spoon mashed persimmon into dessert glasses. Pour cream and honey on top and sprinkle with almonds. This can be served immediately or served chilled.
pH and Health

The pH scale is a means of designating the actual concentration of hydrogen (H+) ions in any liquid. It ranges from pH 0, which is the most acid, to pH 14, which is the most alkaline, while a pH of 7 is neutral. Because the pH scale is logarithmic and not arithmetic, two solutions that differ in pH by just one pH unit means that one solution has 10 times the hydrogen ion concentration of the other or is 10 times more acidic. For example, a cola drink has a pH of 3.0 and blood has a pH of about 7.4. For each unit, the pH changes by 10 times. Therefore, the difference in pH is only about 4 units but the cola is $10 \times 10 \times 10 \times 10$ or 10,000 times more acidic than blood.

The body's acid-base balance, or pH, must be regulated carefully for bodily enzymes to function properly and normal body metabolism to occur. Any marked changes in pH may be life-threatening. The organs in the body responsible for maintaining the acid-base balance are the kidneys. In fact, the primary function of the kidneys is to regulate the fluid, electrolyte, and acid-base balances of the body to create a stable environment for tissue and cell metabolism. Uremia is a condition in which the kidneys fail to perform these functions and is a major cause of morbidity and mortality in the United States.

Measurements of the pH of the blood plasma are commonly used in diagnosing disease. For example, the pH of the blood plasma of a severely diabetic person is often lower than the norm value, a condition called acidosis. Acidosis, hydrogen ions are excreted. Other conditions associated with acidosis are uremia (kidney disease) or renal failure and lung diseases. In certain disease states, the pH of the blood is higher than normal, a condition called alkalosis. During alkalosis, hydrogen ions are retained. Diseases associated with alkalosis are bacteremia, pulmonary embolism, and Cushing's syndrome.

As with all aspects of human life, proper diet is imperative in maintaining an appropriate pH level. Unfortunately, the American diet is 80% acid-forming food rather than the necessary 75% alkaline-forming foods. Acid foods cause the body to create a buffering system to protect itself from being harmed. This natural buffering system requires the use of body nutrients, especially electrolytes. The main electrolyte minerals - potassium, magnesium, sodium, and calcium - are vital to metabolism. Usually, the body has a sufficient reserve so buffering is not a problem; however, consuming too many acid-forming foods creates stress on the system and depletes electrolyte reserves. In that case, the body robs the needed
pH AND HEALTH

electrolytes from various organs, causing an imbalance.

Most foods contain a combination of both acid and base elements but the influence a food will have on pH is determined by which element is dominant between the acid and the base. Either these elements will release hydrogen ions and create an acid medium or they will accept and combine with hydrogen ions to create an alkaline medium. Whether a food can be thought of as “acid-forming” or “alkaline-forming” depends on the condition after metabolism has occurred. There are many foods that are acidic in their natural form but when broken down are alkaline. On the other hand, foods that are naturally alkaline form acids. In general plant products change in character from acid to alkaline while animal products change in character from alkaline to acid during the process of metabolism. To restore health, 80% of the foods you eat should be alkaline-forming foods such as most fruits and vegetables, herbs, seeds, and nuts. Only 20% of your diet should consist of acid-forming foods such as meat, fish, poultry, eggs, and dairy products.
VITAMINS & THEIR FUNCTIONS

Natural vitamins are organic compounds found only in living things such as plants and animals. They are essential to normal functioning of the body and are necessary for growth, vitality, and general well-being. Vitamins are used by the body for metabolism, the chemical process by which energy and matter are made available for use by cells and body, as well as forming bone and tissue. Although countless vitamin supplements are available in stores, they can not replace food. In fact, vitamins can be assimilated without ingesting food. They are classified as either fat-soluble or water-soluble. Vitamins are destroyed during cooking or food processing.

ANTIOXIDANTS

Antioxidants protect the body's cells from the damaging by-products created by oxygen, called free-radicals. When oxygen molecules become highly reactive, they cause cell damage leading to heart disease, cancer, cataracts, weakened immune system, arthritis, circulation disturbances, and diabetes. Antioxidants help counteract the damaging effects of free radicals. They work to control free radicals, to transform them to less damaging compounds, or to repair the damaged cell. The major source of antioxidants is the plant kingdom, especially deeply colored fruits and vegetables. Although supplements can be found high doses of nutrients in the form of pills is not a wise choice, as they can be harmful. High doses of one nutrient can offset the benefit of another. The most common antioxidants are the vitamins A, C, and E, and beta carotene. Other known antioxidants include silymarin, L-carnosine, selenium, zinc, manganese, ubiquinone (Q10), canthaxanthine, amino acids, lycopene, isoflavones, and carotenoids.

# Minerals & Their Functions

Even though trace minerals, sometimes called trace elements, occur in minute amounts within the body, they play a major role in health and have a powerful effect upon health. There is now a slowly emerging realization that we need the complete range of the 84 naturally occurring elements on Earth in our nutrition to stay healthy and well. Of these, 72 are trace elements. They are needed for effective assimilation and utilization of vitamins and other nutrients. They also help digestion, provide essential hormones, enzymes, and essential body functions and reactions. Trace minerals help in replacing electrolytes lost during perspiration or diarrhea and protect against toxic reactions and heavy metal poisoning.
